U.S. GOVERNMENT RUNS 'GANG STALKING' VIGILANTISM, SAYS EX-FBI OFFICIAL

http://www.nowpublic.com/world/u-s-govt-runs-gang-stalking-vigilantism-says-ex-fbi-official

Official confirms what thousands of victims have long known: an evil U.S. shadow government is conducting a covert, taxpayer-funded genocidal purge of American society — while Congress and an apparently entrained Obama administration sleep.

Author's note: Former FBI official Ted Gunderson died of cancer on July 31, 2011. Was his illness induced by silent electromagnetic assault or by other nefarious means? We will never know — and that's just the way certain entities want it.

A former senior official of the Federal Bureau of Investigation says "rogue" military intelligence and law enforcement units of the federal government oversee a nationwide network of community-based "gang stalking" harassment, intimidation and domestic terrorism directed at thousands of U.S. citizens who have been extrajudicially targeted as "dissidents" or undesirables.

Ted Gunderson, 82, who has served as the special agent in charge of the FBI's Los Angeles, Memphis and Dallas field offices, has stated in a series of public speaking appearances that he is now targeted by these same elements, and fears for his life and for the safety of his family. He reports that the windows of his home have been shot out, and he believes he has been poisoned and physically sickened by those seeking to silence him.

Since his retirement from the FBI in the 1979, Gunderson has been a Southern California- based private investigator. He is most noted for his defense work on the murder case involving former Army physician Dr. Jeffrey MacDonald.

The ex-FBI official's comments represent the most compelling testimony to date indicating that "black operations" of the federal government are dedicated to waging a covert war of terror and persecution targeting American citizens.

"Based on my thirty years' experience and research, I have determined there are thousands of victims who have been targeted by an illegal U.S. government rogue criminal enterprise — military intelligence, probably, tied into CIA and FBI and so forth — that is active 24 hours a day throughout the United States," Gunderson stated in an October 2008 speech posted last fall on YouTube.

NOTE: It appears that the link to the Ted Gunderson YouTube video has been sabotaged. Please search "Ted Gunderson" and "YouTube" and look for the link to his speech at the Gulf Symposium. I believe this is more blatantly illegal and malicious interference with telecommunications by operatives of Lockheed Martin, under contract to U.S. Homeland-mil-intel, or another entity representing the agencies, commands and corporations of the U.S. fusion center network.

"It is far too extensive to be controlled by private enterprise," Gunderson said. "I believe this well organized and sophisticated operation has a central command located somewhere in the United States, with multiple satellite offices scattered throughout the country."

Said Gunderson:

"It appears those who administer the program can call any location in the United States for surveillance, a telephone tap, or… harassment directed at a victim, and immediately dispense manpower to the source… This well-greased, covert operation makes the old FBI counterintelligence program (code-named "Cointelpro") look like a Sunday school class."

Gunderson also maintains that federal security and law enforcement agencies and commands have been infiltrated by members of secret societies such as the Illuminati, which he has described as a satanic criminal cult.

This correspondent has reported that Lockheed Martin, the world's largest defense contractor and the prime cyber-security and information technology supplier to the federal government, coordinates the communications and trains the "team leaders" of a nationwide Gestapo-like apparatus, which has tentacles into every security and law enforcement agency in the nation, including state and local police and 72 regional "fusion centers" administered by the U.S. Department of Homeland Security. According to company literature, Lockheed Martin has operations in 46 of the 50 states.

nowpublic.com/world/rule-law-morality-die-usa-fusion-center-slow-kill-genocide

Lockheed Martin also has operational command and control over a U.S. government microwave radio frequency weapon system, deployed on cell tower masts throughout the U.S., that is being used to silently torture, impair, subjugate and electronically incarcerate so-called "targeted individuals." The nexus of this American "torture matrix" appears to be Lockheed Martin's Mission and Combat Support Solutions central command center in Norristown, Montgomery County, PA., which employs several thousand workers. The defense contractor's global headquarters is in Bethesda, MD, just outside the nation's capital.

nowpublic.com/world/u-s-silently-tortures-americans-cell-tower-microwaves

Lockheed Martin, under contract to U.S. security and intelligence agencies and commands, also conducts warrantless surveillance of the telecommunications of targeted persons, and routinely censors and tampers with the content of their communications, as this reporter has documented in a series of recent articles:

nowpublic.com/world/u-s-govt-uses-spoofed-web-pages-and-urls-censor-internet
nowpublic.com/world/more-blatant-ideological-net-censorship-u-s-intel-gestapo
nowpublic.com/world/phony-facebook-comment-block-lockheed-martin-cyber-censors

nowpublic.com/world/wash-post-blog-moderation-used-cover-u-s-govt-censorship

Thousands of Americans, including this veteran journalist, have publicly reported being the victims of silent electromagnetic assault and community-based home intrusions, vandalism, and even the poisoning of food, water and air. Federal and local law enforcement routinely dismiss their reports as the product of delusions or mental illness, and refuse to investigate their complaints.

nowpublic.com/world/sadistic-web-ads-foreshadow-silent-u-s-microwave-weapon-attacks

These "targets" and their families have been physically harmed and financially destroyed as a result of taxpayer-funded "psychological operations," police-protected community "stalking" harassment and malicious vandalism, and other covert programs of personal destruction, including government-assisted financial sabotage. Many appear to have been targeted as a result of their politics; their activism or corporate whistle-blowing activities; their ethnic background; or as a result of score-settling vendettas by persons in positions of power — in government and in the private sector.

The former FBI executive's remarks are only now attracting widespread exposure on this and other web sites. This correspondent believes that recent revelations of government-sponsored domestic terrorism against U.S. citizens have prompted some conscientious insiders to call attention to Gunderson's public statements.

Gunderson has said that government-sponsored gang stalking terrorism is financed "through illegal black operations," such as sales of illegal drug; gambling; prostitution; and even sexual exploitation of children. But this reporter believes it is more likely that programs of government-sponsored domestic terrorism are funded from military and security "black ops" budgets that have been illegally diverted to covert domestic programs administered and conducted primarily by defense contractors.

Late last year, The New York Times disclosed that an official of the U.S. Air Force had set up an unauthorized military intelligence spy ring in Pakistan and Afghanistan, run by Lockheed Martin and funded by defense appropriations.

nytimes.com/2010/10/29/world/asia/29intel.html

This correspondent suspects that a similar arrangement could be funding government-sponsored "gang stalking" operations throughout the nation, and has urged Congress to immediately hold public hearings as part of a comprehensive investigation of military-style "black ops" targeting American citizens and their families — a silent, slow-kill genocide motivated by ideology and hate.

What can an ordinary person do against this problem when they know some of the people doing this to them?

What can a TI do ?
1) Research Gang Stalking – the more you study their methods and tactics less you will fear them and the more you will take steps to safegaurd yourself
2) EXPOSE THEM – this is the best part , Exposure hurts them like bullets and weapons, the more you expose them the more you do yourself good
3) Ignore them- remember they are looking for response statistics to see how you react to their harassment , Ignoring them is probably one f the best things you can do.
4) Network with fellow TIs in your city and hold regular meetings , this will not only be a big emotional support for you but also help everyone put an end to this evil in society.

Very good advice, I have been persecuted for about 25 and counting. Its almost impossible to meet and make true honest friends with other T.I.´s because the stalkers don't want you to have any friends at all. I have also thought of creating a local T.I. support group in my hometown or church but, then its not a good idea also because you will get fake victims claiming they are real T.I.´s and they will infiltrate themselves in the support group. But, if you can create a group

just be very careful. God bless.

1. The best thing you can do is get a car alarm because they do vandalize and go through your car.

2 Get outside camera but do not connect them to the internet. they are able to hack into all your wireless devices (especially if you have Comcast . reason why they have access to all your email, social media sites etc).

3. Get a alarm system on your home, not Vivint it system works only through a wireless internet (hackable) only and yes they will hack the wireless system that is ran through Comcast and get into your home.

3. Get a land line phone in your home, its harder for them to hack into.

4. know that your cell phone is being tracked. that is why they know where you are at all time. They can monitor any and all information used on the cell phones. if you can go online, access your account through your carrier and see your text messages know that they can see them also.

5. Get a cell phone that you can take the battery out. the only way that you can't be track from a cell is to remove the battery, turning it off does nothing. the cell can be active and your conversation heard with thought the facing lighting up.

6. . no matter how many times you change carrier they will find your cell because rarely do people change the cell number. they track the phone number and will always find you when you change carrier. to avid this , well for a minute you have to change the phone number. However they are tracking your bank account if you pay bills online on your wireless internet connection Verizon, Comcast the absolute worse your internet is never secured wired or wireless. read up on internet services with back door. the back door enables monitoring.

7. Get a hot spot. thats a internet connection you can carry around with you. you can go to other location and use it and feel secure.

8. They track you through your banking institution your credit card purchases (another feature where they discover all your personal information while using the internet and Comcast. it doesn't matter if its hard wired or wireless you are hacked don't believe the WPA2 security, if its Comcast your being hacked… Use cash

9. Keep a hand written log (a key logger can be placed on your computer to record everything you type) on all strange occurrence by anyone that you feel is violation your personal civil rights. write down names, dates and time. this way you will see a pattern of who is really involved.

10. there is a strong possibility that they have gotten into your home and place bugs inside. get a bug finder and scan your home for possible hide camera and bugs (when i ordered the device on-line, they cancel the order. they were tracking my credit card purchases. ion a different occasion it was never delivered. i had problems with mail being opened and sealed so yes the postal system obliged. I filed several complaints with Maryland's postal system and they did nothing. that pretty much told me they were involved.

11. I can't stress enough keeping a hand written log with dates, time, incidents that just don't feel right, and people- get their name. during inadequate service if you ask "whats your name" you will definitely see a shift in their attitude.

12. there is a gadget you can attach to your windshield that holds your cell phone. Attach your cell to it wherever you go when driving. keep your cell phone camera on. record or just take pictures of any car that you feel is following you, if you see it on several occasions, you will know its following you and you will have documented proof. this way you will also get the model/color of the car, the license plate and even the person driving.

these are just a few trick i discovered because of a incident that made me a become the Targeted Individual who living in Maryland.

I bought a house in Charles county Maryland, Wexford Village. Once I questioned the fraudulent billing practices of my Home Owner Association (HOA) management company, Meredith Management, who received HOA payments, but said they had not received payment and followed it up with thousands of dollars in fine and a threat to put a lean on your home.

I later learned that Meredith Management LLC. was owned by Charles county commissioner Candice Quinn Kelly. When going to court in LaPlata MD (court for all of Charles County Maryland, to include Waldorf where I lived) without a lawyer.

I presented my evidence (receipt of payment made from Meredith Management, copies of certified money orders for payment of the $600.00 HOA fee and a copy of the money order)that Meredith Management LLC. received. Nonetheless, the judge ruled in favor of Meredith Management and told me to pay their lawyer fee of $300.00

I appealed the order but Charles county court acted as if I never filed the appeal but retaliated by sending me notice that the price was now $600.00 and Meredith Management had the right to put a lean on my property if $600.00. was not paid.

From that incident I was Targeted. My home vandalized – outside shrubs, trees, flower grass poised. Mail opened and resealed. all wireless devices hacked, bank accounts, email, social media sites disabled (cut off communication and you win the war).

I was denied police protection. If i called the police to report a incident (against the neighbor who committed the criminal acts against me, my family pets and property) either I was disregard, told its a civil matter they could do nothing, or believe it or not, yelled at as if i called the police unjustly.

I began to encountered constant police harassment. Even Charles County MD head States Attorney filed false perjury charges against me when I submitted a complaint with pictures of 2 Charles County officers assisting the harassing neighbor in tearing down my property.

The more i persisted with my written complaints of the ongoing escalating harassment, destruction of property all caught on outside surveillance video tapes to include two female Charles County police officer's and the neighbor tearing down my property, Charles County States attorney office filed false felony criminal charges against me, with the harassing neighbor falling claiming i pulled a gun on him. even with a police report that stated no gun found (basically the neighbor was lying) Charles county prosecutor to the opportunity to convict me on any criminal action they could drum up.

I hired around 5 different lawyers over a period to deal with the case but none would bring forth the evidence I had in hand and asked that the case be dropped. Although i paid each lawyer in full, they each operated as if they worked for the prosecuting attorney and their plight to convict me and surpressing all evidence.

After not backing down and going through several lawyers Charles county came up with a different tactic while I was in court on a case to dismiss a lawyer, the judge waited until the courtroom was empty and with the prosecutor the judge said to the prosecutor "I think she has mental issues, the prosecutor agreed and I was arrested, jail for 7 days.

while in jail/ no representation, the judge/prosecutor had a state psychiatrist come in. i was put in a small room. with shackles on my ankles and i was handcuffed to the wall in what appeared to be no larger than a closet. a desk was pushed up against me and the wall. the state psychiatrist came in, black female, she talked to me less than 20min.

while in jail (7days) my daughter worked to find me a new lawyer

I was declared incompetent to stand trial and placed on house arrest by the judge. a second judge took over and continued the case for five months with house arrest with the help of my lawyer, a former prosecutor who performed in my case as if he was still a prosecutor.

My lawyer hired a psychiatrist who sat down evaluated and talked with me for hours. I was declared total saneand while being harassed by the neighbor. My lawyer issued the report to the judge. However,
in court my lawyer neer brought forth the psychiatrist report but instead questioned the psychiatrist on the stand. The psychiatrist the he hired he got on the stand and questioned him about his experience (which was more extensive than the prosecutor's state psychiatrist . My lawyer declared the psychiatrist that he hired unqualifiedon the stand. The judge continuied my stay on house arrest, where I was only allowed to go to work.

I just barely escaped jail time by circumventing my paid lawyer and filing my evidence myself with
charles county clerks.

with the stamp copies as proof of the submitted evidence the judicial system could no longer deny their knowledge of the false charges. they could, but they did not.

Although my paper work requested that my lawer be fired (I found out that he was due to began serving jail time the following month). The judge denied my request and the case went forward. with evidence in hand and a jury (never use a judge. if you canal always use trial, a jury of your peers. i won the false felony charges but the judge/my lawyer separated the purjury charges and i was given a stet in leiu of having another trial that same day. the purjery charges were falsely wrote up. purjury only applies in court under oath, my lawyer refused to bring this issue forth. the prosecutors in Laplata MD got away with the false perjury charge…

Earlier I'dI moved…ran….got out of Charles County Maryland only to move to Prince George county Maryland where targeting and harassing individuals exists on a larger scale. In stead of one police protected terriorizing neighbor I have five surrounding participants all with IT, military or security clearances, willing and given time off (work from home) just to monitor and terrorize the selected individuals in this case just happens to be me.

Hands-down Lockheed Martin is referred to, by those in-the-know, as the 'shadow government.' I thank the Ti community for sticking to facts. This targeting shot into the brain while sleeping and awaken, ripped in almost two, when I tried to start a safe house for TIs, landed in the hospital whereas I almost died; I seen the NSA and CIA and military and local police (in groups 4 states, and decent cops came to me telling me its not all of them and that many we're fired in 'one failed swoop' their words to replace them w/those who would do this to their constituents, and detectives whom told me a nation of traitors lied to them about these so called less than lethal weapons and who they'd be used on–the purpose) w/local neighborhood watch types charging (gangstalking) utilizing drones w/AI technologies (a sheriff informed me in 2012 its drones); I watched them come down to the ground, swooping over neighbors' homes after me with a life of their own for several years while filming them, a lone before finding out thousands of others in the US and abroad we're going thru the same thing.

I'm afraid most of what you read on "gangstalking" is law enforcement disinformation. I would urge you to get good sources such as "Unleashed and unaccountable" https://www.aclu.org/other/unleashed-and-unaccountable-fbis-unchecked-abuse-authority and the story of "Ritt" Goldstein, the police reformer forced out of the United States by this https://www.theguardian.com/world/1999/feb/27/2. Don't subscribe to disinformation groups -there are many and they have hurt a lot of people.

I am the victim of gang stalking because I am an MK ULTRA "victim" who is being gang stalked into silence. I have grown up in the US where I was harassed and stalked, drugged and poisoned, and all the bells and whistles of gang stalking and mind control (almost, there's so many methods they use but I've experienced quite a lot of these methods of control and torture). And I left the country, trying to find peace. I moved to Europe, where immediately followed me on their schedule. Then I went to Asia, and it follows me here on a daily basis, 24 hours a day. It's not based in the US, it's a worldwide system of control that thousands or even millions of "ordinary" citizens are happy to participate in. I didn't know there was this much hate in the world, but it's very bad and extensive. We can't just look at the US Government as the culprit.

Been there done that. The children of these sick demented families that continue to gang stalk are brain washed from generation to generation at an early age to be cowards and bullies. It is a world wide system. It was let known to me that it is a network of over 4 million in US alone. They are very sick people. The governments of the world are corrupt and allows the underground, societies within societiies to continue this injustice. I know it goes way to the top of all govall the ernments.

Lol, Your comment is funny because police who investigated found oven cleaner in my shampoo to be the cause of third degree burns to my scalp. They also found acetone in my mouthwash. However the closest Feds have gotten is a us postal service worker sending my mail back to my bank saying I'd moved though I hadn't until the postal worker also accessed my network 2900 times in 36 hours. Once she admitted it was her computers name on my firewall she got another neighbor to access my hard drive in an attempt to erase their evidence, but I pulled it before they succeeded and sent it to …. somewhere safe.

I personally an not comprehend that so many people are so easily persuaded to turn on a fellow citizen. its not paranoia when you are the one living it. Luckily for me…the very last person I am out to impress is a disfunctional spirit that is so lost they truly believe what the are missing in life is a family full of other rejects whose Mommy didnt love them or didnt show them te proper amount of love (explains where gangsalkers are able to perform their evil skits…they get it from they Mama…or lack of Mama, to be more precise) No, I hold zero value for what your opinion about me might be. I would only hope that they could somehow undergo lifes experiences to the extent that I have….then theh have, then they would have the wisdom needed to tell gang stalkers how stupid they are. How to ask the other GS assholes what their purpose is for their games, and is that purpose worth the basic rights a human suppose to have under even international law? I would then ask them to be honest with themselves as to the true purpose.behind their GS activities. I would bet that they would most likely be admitting thattheg ha a need to belong..human need to feel loved and liked by others…and begangstalker

I just looked this up and was surprised to see how many are going through this like me. In my case it is because I found out about something and a lawyer I approached went and turned the information over to the people involved. He then warned me to let it go. None of the other lawyers will go up against these people.

I am sad to hear of so many in this situation. When I get told something about someone, even by family who have heard it elsewhere, I really have to question where it came from or if there is any truth to it at all, since like you, I am educated in the B.S. of how lies get spread to destroy a person's credibility and good name that has likely been there for a lifetime until suddenly an infestation happens.

They get people who are no match for them to do their bidding.

Absolute crap! If anyone was operating a covert operation, it was Gunderson. You'll find his rodent droppings in Texas, California, and Tennessee where he brought in the "real murderers" of MacDondald's family to investigate the police. Laughable even for an FBI agent.

You'll find more of this type of behavior around the military bases and among the drug/alcohol crowd. They feed off each other.

It's true they stalk family members, but only after you've defeated them in every scam.
Their new cointelpro is disguised as conspiracy theorists. They whine and squal if any and all funding doesn't go to the military or their religious belief system which they've perverted to get others to believe their crap is from God or the government.

Typically it's just the good ole' boy system that ensures the military will be placed in government jobs for a lifetime and never expected to do anything for the citizens. Police are involved, but only for their own gain which they profit from the whodunnit system through private citizens that are expected to hire them for protection or lawyers that employ them to force others into lying for them.

Often they start these lies because they think everyone is out to get them when in reality they are the ones out to get everyone else.

The color code system is employed to hide behind people trying to work. They'll have none of that. Unless you are reporting back to their "listen to me brag about who I know" go nowhere operations.

You'll find their "cult literature" in doctors offices, which they leave behind in their "cult investigations."

These people spend the majority of their time getting drunk at the VFW and running people over. Military bases are not very strict on drug enforcement either. Yet, they expect everyone to protect them and expect others to vote their ilk into office or we'll all go up in a ball of flames.

I was gang stalked when I was a student at Ulster University (Coleraine) in 1979. It was mainly a slander campaign which resulted in a lot of weirdos hanging around my house. The neighbour on one side sold up and the elderly man on the other, who had lived there all his life, became fearful and bought a guard dog. It was made impossible for me to get work. When I moved to Birmingham I lived at Birmingham International house (1984). The slander campaign continued. Then I worked at Balham Sorting and Delivery Office, Sth London, until 2011. I was slandered there too, but my boss and co-workers did not believe the lies, so life was tolerable. But my equipment at work kept breaking. I now live in Spring Grove in Harrogate. This is a multiple occupancy address. When I moved in, all the previous tenants (14 rooms) were moved out and new people moved in. I only discovered the term gang stalking a few months ago when I was subjected to outrageous behaviour from a relative. Wiki told me it was “gaslighting”. When I researched gaslighting, I found gang stalking and realised that is what had happened to me at Ulster University, and ever since. I am curious how gang stalking is financed. Two of my previous landlords lost their houses. ITwo days into researching gang stalking on the net, my IPS/Administrator banned me from writing on virtually every site. I keep trying though. Sometimes I manage to get an entry on.

They are using x-rays in two manners. They use very high radiation x-ray backscatter imaging to see everything you do inside your home, work etc. it works like the airport body scanners or the x-ray imagers made by American Science and Engineering, but they don't use the low radiation version because they want to see into your body, they save money and they harm you more with the high radiation version. They also do what they cake "cooking". That's when they expose you to an extremely high level of x-rays, gamma rays or neutrons by putting a radiation source as close as they can to you for an extended period of time. It causes health problems, brain damage, psychological problems, death etc. They are digging tunnels here in the Houston area and possibly elsewhere. They can be right under the slab of your home under your bed. They probably dig through the deep clay layer so the clay keeps most of the water out and gives support. They are all super sex offenders.

Yes, thank You. I am being tortured and have serious physical injuries requiring major surgery. I am being tortured worse all the time. I have a nasal implant surgically and painfully implanted. The person who did this to me is cousin Joni Barrett Martin, 3614 Gertrude ST Bellevue, NE 68147 USA. The other location of this equipment is a Mr. Marty Buss, 2204 Jackson ST, Bellevue NE 68005 SE Corner of the house.It has been a drug house for 34 years, I bought dope there in 1980 as a kid. I have long since stopped. The problem is: he lets his drug customers get loaded and they seriously abuse the equipment and me. I keep my mouth shut about this. If I must be a part of this, then please cut off his drug supply. It has made him exceedingly cruel and injurious to me. They had a drug party and they suffocated me in an ambulance to the Hospital. I couldn't breathe and they laughed at it. Just get rid of his drugs. He shows the equipment to many people. He left the microwave equipment long enough to produce pneumonia in me and my 78-year old Mother and he bragged about doing this. How sick! He's been a professional drug addict for 34 years.

I am a victim of electronic harassment today going on in morristown Tn. I am a RNBSN and I continue to work full time . Along with the harassment is the use of supra intelligence/government mind control- to implant the thoughts and beliefs and lies of the operators into the victims head. I have emailed and written the president, Tn govern officials in Nov 2013 asking for help- I received nothing. Does anyone need to ask why Edward Snowden left this country?

"PETITION TO IMMEDIATELY INVESTIGATE AND PROVIDE THE ESSENTIAL PROTECTION FROM DANGEROUS CHICAGO LAW ENFORCEMENT OFFICIALS"

Daniel J. LaVeau, presents a serious petition for the "Immediate Investigation and Essential Protection From Dangerous Chicago Law Enforcement Officials", wielding the powers of the dangerous Chicago corrupt law enforcement establishment, after "LaVeau" presented factual exonerating evidence and premeditated fraud on the part of the "Chicago F.B.I.", "Illinois State police", "Cook County States Attorney", "Cook County Sheriff", and "Chicago Police Department", that involves a 25 year unlawful Behavior Science Project of the joint task force offices, and millions of taxpayer dollars and thousands of man power hours.
The original "F.B.I." Chicago field office in a premeditated criminal design to operate a special "Serial Murder, Violent Crime, Child kidnapping, Behavior Science Multi Discipline Task Force", to get funding and approval to use "Saturation Units" consisting of 30 – 100 special agents, and "Advanced Satellite Imaging and Bio-Metric Voice Print Technology", to do a "Unlawful Roving Enhanced Interrogation", involving the use of "Immediate Threats of Death", "Sexual Organ Mutilation" Death by Burning of being Doused with Gasoline, and placing Gasoline cans outside the "LaVeau" family home next to the premises, a "Tit for Tat Threats of Murder", "Mutilation", and "Kidnapping of his family members", and to do "Home Invasions" on his family's homes, trying to elicit a incriminating statement to numerous kidnappings and Homicides. He never committed.
The Chicago Field office of the F.B.I., after "LaVeau" presented Factual fraud on their part of taking evidence from the following solved closed crime scenes;
a. 1426 N. Greenview St. Chicago Ill, Where pior to "LaVeau" Residing Between Late Nov. 92 – Mar. 1993, A Latino couple in Approx. July 1991 Abused 2 of their kids tying them to window bars, bunk beds, ans space heaters, and unfortunately murdered 1 of the children, thats body stayed in the basement for 2- weeks, till removed by the chicago Police.(all evidence verifiable by Chicago Police reports , Cook County States Attorney court transcript, Cook County Coroner reports, and department of family services that had to place the surviving child in foster care or relocate with family.)
b. 3113 W. Lake St. Glenview Ill, Where "Philip LaVeau", (petitioners Uncle) tied his wife "Marie LaVeau" up in the attic prior to 1965, where was discovered his trousers, sweater, underwear, her night gown, wrist restraints, and numerous toys belonging to "Philip LaVeau &/or the "Eastman family", that resided in the dwelling from approx. 65 – 1980. All items manufactured prior to 1965.(forensics and testimony to the original detectives also suppressed that fact a individual named "Jerry Mahalic" used I/V drugs in the attic in 1988 during a keg party where was discovered his blood D.N.A., and he admitted to using drugs in the attic in 1988 to the lead detectives in 1995.
4. The unit of the F.B.I., started their operation between a joint task force of the "Illinois State Police', Illinois Department of Corrections", and Special prosecution Bureau of the Cook County States Attorney's office, and Cook County Sheriff, creating factually fraudulent crime hypotheses using "Geographical Profiling" of placing missing children inside the closed crime scenes believing "LaVeau" never knew there histories, and nobody would ever discover them, operating in a premeditated design of major fraud against the "United States and Illinois".

5. They created factually fraudulent crime hypotheses of using a “bone saw”, discovered inside “William LaVeau’s” basement (where William LaVeau operated a Coffee Machine restaurant repair shop since approx. 1976) suppressing the fact the device was wrapped in news paper dated in 1980 with over 15 years of accumulated dust on it and welding soot from were “William LaVeau” had the devise welded and repaired in 1980 after receiving the saw from a butcher at “Georges restaurant” at 230 Kinzie Chicago Ill, and having it repaired.
6. The Chicago F.B.I. then suppressed and operated in a premeditated criminal undertaking to alter the clothing of “Philip LaVeau” alleging it was “LaVeau’s” fishing outfit to conceal their fraud, having lay knowledge that “Philip LaVeau” owned a Hunting/Fishing cabin in “upper Michigan on Paint Lake” that the forensics of the clothing having fish evidence on them and the fact the clothing had over 30 years of accumulation dust on it, and believed would deny “philip LaVeau” ever existed.
7. After the Chicago F.B.I. were proven to have undermined the law enforcement establishment to use “Geographical profiling”, and to have solely used solved closed crime scene evidence and / or suppressed factual exonerating evidence, and the atrocious “Roving Interrogation” Tactics of Threats of Immediate Death, Sexual Organ Mutilation, using deranged saturation units in a “Highly Dangerous Vigil Anti Style Stalking”, operating with the Illinois State Police, Illinois Department of Corrections, and Chicago Police agents and their personal family members, they then created numerous factually fraudulent crime hypotheses of altering a solved closed homicide to be a “Home Invasion” that transpired at 1358 N. Ashland ave Chicago, ILL suppressing how garbage got into a abandon building at 1423 N. Greenview St. Chicago, ILL by a couple named “Sam & Carol”, and created a delusional crime hypotheses of “LaVeau”, being transvestite prostitute residing in the building with a “Clem Williamson” (Williamson was discovered dead in the building in approx. Mar. 1993), and also created a factually fraudulent crime hypotheses of a abandon school bus discovered at “Lemoyne & Ashland ave Chicago , ILL” to have been related to a Childs body discovered in a fire at Clybourne, Cortland, and Armitage St. Chicago, ILL in approx. July 1992 that no time frame matches and suppressing the vehicle was placed there by a “Polish Street Bum Junky named Marty”, that lived inside the vehicle, stripped the vehicle down and that when the incident of their alleged fire transpired the individual “Marty” was with in 6 blocks of the area.
8. After the Chicago F.B.I. were proven to have errored or operated in a premeditated design of major fraud against the United States government and the high ranking Federal, State, and Chicago law enforcement officials learned that “Laveau” was seeking/demanding their full criminal investigation by a official with out a internal conflict of interest (United States Inspector General, Congressional Independent Appointed Special Counsel, etc), they operating in a premeditated series of planned criminal events created Propaganda of “Laveau” being obsessed with serial murderer “John Gacy”(to be praying to him/making love to him,etc), alleging LaVeau” Sexual Assaulted numerous of his friends children, (children that are dead and never alleged any type of mistreatment or assault), alleging “LaVeau” transmitted S.T.D’S. to the children Syphilis,(to lay knowledge of all law enforcement officials “LaVeau” has never been diagnosed or ever been treated for any type of S.T.D.) stating “LaVeau” was a Convicted Sex Offender/Child Predator, to create a Threat to Society to get Carte blanche operating powers, to stop/hinder any type of investigation from being done into the factual intentionally suppressed evidence on all crimes “LaVeau” was/is targeted to have committed. And create a hostile dangerous environment to stop/hinder any type of social life, employment and stop any communication from anyone that is a threat to exposing the truth Chicago Federal Bureau of Investigations corruption, Chicago police, Cook County States Attorney, Illinois attorney General, Illinois State Police, Illinois Department of Corrections, etc.
9. The United States Government has a criminal/Civil responsibility to protect the people from dangerous multi millionaire Federal and state politicians that are wielding powers of the dangerous City of Chicago Law enforcement establishment, believing their going to keep “LaVeau” in a continual rapport of highly deranged shocking to the conscious enhanced Interrogation, Programing, and Reckless Mental Conditioning till they make him believe he committed crimes and get a confession, so they can get Immunity and “LaVeau” would sit 10- 20 years in state prison till a appeal or post conviction attorney made the court by order give the forensic science up of the solved closed crime scenes.

And as a exhibit here is the last demand request sent to the united state office of accountability..

The FBI and local Chicago law enforcement officials have used Immigration dangerous African Americans, Middle Eastern, and Latino’s and their families to place in my Immediate way of travel their Children and then subject me to how they alleged they were my friends deceased children (That died of A.I.D’S OVER 15 YEARS AGO), and/or the victims they alleged kidnapped and murdered,to how the chicago FBI alleges I Sexually Assaulted,and then disposed of their human remains,which i never did or is there any complaint or conviction of, to mentally condition for me to be a convicted sex offender and a murderer, because of the Intentional Reckless planned series of events and outrageous propaganda the chicago law enforcement establishment put in the public and have operated in a numerous planned series of event to get Carte Blanche operating powers with the public.
the Chicago FBI have entered into a series of planned event to use a continual deranged outrageous rapport to program and mentally condition me to believe I committed crimes I never committed so they can/would get Immunity after torturing a confession and then I would languish in state prisons for 10-20 years …

Dear Dan, I am with you. Stalked from birth. I believe it is muti-generational over the entire globe. Been there done that. The children of these sick demented families that continue to gang stalk are brain washed from generation to generation at an early age to be cowards and bullies. I have witnessed this with my own eyes in disgust! It is a world wide system of corruption. It was let known to me that it is a network of over 4 million in US alone. They have infiltrated all aspects of our lives. They are very sick people. The governments of the world are corrupt and allows the underground, societies within societiies to continue this injustice. I know it goes to the top of all governments of the earth. So sad that we must realize that it a grand illusion to what we were lead to believe.

New Interceptor detector, the "CryptoPhone 500" detects fake towers (actually laptops) the price is $3.5K. There have been 17 towers found in the US recently. It is likely these mystery towers "interceptors" are used by criminals / citizen groups like InfagGard to spy on citizens. The governments wild card, to fight domestic terrorism.

I am sorry to hear of your problem. I don't know what else to say except search for God. They will get theirs in time. You cannot run away from it, though if you go overseas, I did notice that the nature and type of harassment changed from country to country – like in Europe compared to US or even the UK. Mabye if you had some funds you could go to a different country and see if your personalised program has different tweaks to it that makes it more manageable? Beware though, for Tis funds are limited and it is important to preserve these.

I've heard it called mk ultra, cointel pro,
gang stalking, etc. What it really is, is full time sabotage and abuse. They can call anything an operation, program, or
an experiment. The problem is that they
have a history of experimenting on humans, when they already know that the results/outcome is going to be negative. It's working wonderful for the few who have made assassination, vigilante justice, extortion legal.
To the rest of the arrogant degenerates it's just cheap entertainment. Once you are a test subject Guinea pig of this "program" it lasts the rest of your life.
The investigation is job security to a bankrupt cannibalistic agency.
Think in terms of ignorant, crusty, evil old senile people you might run across
in a nursing home. These would be the ones who call you names, spit on you,
throw things at you, make deliberate messes for their care givers to clean up,
etc. They'll probably tel you you're ugly, stupid, you look like Satan, you're going to hell….. just viscous and malicious.
They want to bring you back to the year 1800.
Gang stalking is like this, but on Steroids. It lasts a lifetime. They are literally murdering people for drama, gossip, ego, money, or shits and giggles. Most of the time it's premeditated murder. Don't think for a second that they need a good reason to do this. This is entertaining to them as well as a power trip. To many it's also a paycheck.

They will poison and electronically torture you until you die. While you're waiting to die they will mock and torment you as much as possible.
Many probably die from cancer or other illnesses without ever realizing that they are the prey of sadistic sociopaths and psychopaths.

I don't believe everything I read on the internet, but all one needs to do is look around to see that things are not as they appear.

Talking can also get you dead. They sabotage vehicles, create accidents, (of all kinds) run major extortion operations,
harass family members, commit theft,
assault, intimidation, they blackmail, use religious persecution, etc. Whatever is necessary. They don't mind collateral
damage. (murdering multiple people or entire families) to destroy their target.
Their authority came from corruption, and it would appear as though their disdain for law, truth, equality, knows
no bounds.

Don't worry yourself brethren, for people this deficient are certain to self destruct.
They are the lowest common denominator. Judge them by their fruits and their deeds. Now that they have robbed and plundered, I wouldn't be a bit surprised if they tried to bring in their own version of Armageddon or revelations.

They also like to set up sites like this to monitor their victims behavior, and find new guinea pigs. They cal this program "death by 1000 paper cuts" because it's like being psychologically and physically tortured to death.

One should not be at all surprised when a few people decide to revolt, or that they don't like being victimized by narcissistic predatory genetically inclined psycho's.

If you missed out on what's happening.
1) murder or assassinations are now legal.
2) money laundering, extortion, fraud,
libor, insider trading are perfectly acceptable if you're the right person.
3) assault, theft by legislation, experimentation, political affiliation profiling, financial sabotage, are all legal
if you're on the right side. Writing legislation that financially benefits you/
rigs the market/helps you to monopolize
and makes it impossible for your competition to compete. All legal.
Anything goes.
4)Truth-illegal and can get you black listed, locked up, persecuted, murdered,
suicided, homeless, bankrupt.

Let them play with your food, environment, health, finances, land, children, let them dictate your science,
and reality. Now let them play God.

Understand?

Coup. They have hijacked every branch of Law and Government. Now all they have to do is continue to deliberately obstruct justice. It's a bit of an "inside joke" , meaning that the perps get great pleasure from control debauchery and harassment. It makes them feel special and powerful. Unfortunately, this war isn't being fought legally. It is covert and they particularly enjoy egging you on, torture, and narcissistic harassment.
When it's all said and done, these arrogant perpetrators are jeapordizing all of our security through deceit, misinformation, assault, break ins, theft,
vehicular sabotage, financial sabotage,
economic warfare, work place sabotage,
personal relationship sabotage, environmental sabotage, they undermine our health, and in typical sociopath fashion they actually encourage, enjoy,
laugh about their treason. They spend so much of their time conspiring, and planning new ways to destroy and sabotage your life. That is the secret" or inside joke.
They are murdering people for vengeance, greed, money, children,
ego, power, control. The whole idea that someone is bad (some truly are) is often a fallacy. They design these campaigns for money, and revenge. Without a target/victim the psychos and sociopaths wouldn't have jobs or anything productive to do. They are currently culling / murdering the tax payers that elected them. This is a wonderful Imperialist Oligarch program in which he who makes the money gets to keep more of it. He who makes the laws gets to decide who has to obey the laws while the major crime mafias operate through force, intimidation, deception, and impunity.

One last note is that these criminal cults, lawless fraternities, oligarchs and their henchmen created their own delusional selfish fairytale. Now they need you and I to subscribe to it, in order to prolong the privilege, entitlement, disease, environmental destruction, human experimentation, the economic ponzi scheme farce, and encourage the pain and suffering of innocent human beings who have not done anything to deserve the wrath of the sociopathological degenerates.

This may work for them for a time, but every tyrant throughout history has met his demise. I'm predicting that there will be backlash that is met with cold blooded contempt, and that when decent humans have exhausted all of their legal options, they will attack these narcissistic predatory psychopaths head on. (Not shoot up a movie theater or school house) How long do you suspect that Americans will pay bureaucrats, selfish sociopaths, and psychopaths to destroy their environment, economy, children, freedom, pursuit of happiness, or be slowly experimented on and murdered? They have been playing this arrogant game of Russian Roulette for quite some time unscathed by facts, reality, law, or reason. It's just a guess, but I'm sure that people are not happy and that retaliation is the logical conclusion. Just a guess. We can't allow devils free reign of the earth and all of its inhabitants. Life is precious not the joke our idol masters make it out to be. Only time will tell. Their extermination genocide program has become very evident where I am. There is no denying what they've done to the environment, economy or their own people. These public servants don't represent us and really never have.

I have read all the comments. And all of this saddens me to the bone… Gangstalking happens all over the World. It's a horrible form of bullying. It has ruined families, friendships, careers…. It has caused premature deaths, suicide, mass murder and crime spree. It can cause school shootings, work place shootings, mall shootings, the list goes on. It can make one feel alone, desolate, frightened, hopeless.. I'm here to help validate your fears.. I'm so very sorry this has been happening to you. I have been harassed for many many years. Many terrible things… Beyond belief.. has been done to me. Street theatrics, mail tampering, my son, my car, my friendships, my home, my workplace, my medical records, media harassment, Disc Jockeys, utilities, cable, phone. My car, tires… I have been almost killed on the road… Through it all I have held my head high. I have The Lord with me everyday. I pray everyday. And when the theatrics start up, I repeat over and over to myself the Lords Prayer. Please know he hears you. I know everything feels hopeless. I really do. I even pray for the Perps children. I pray because the perps themselves are putting their children in danger… Some are in a public position, I feel sooner or later, something's go to snap…so prayer for deliverance. On bad days, take a deep breath, visualize all positive things in life. Nature, God, Prayer, Music (yours) turn of tv and radio if you feel media involved. Meditate. Pray that the perps will become kind, compassionate, that they love their children and family enough to stop a legacy of hating others, of taunting others, hurting others.. Prayer for The Lord to forgive them. I have spoken to a few in the Government that manned up, and were honest enough to admit what was happening, was real. I also know the airwaves played their part too… Along with a few others that had a vendetta or two. My gangstalking was so Universal…that it caused great harm and danger to my community. Finally I found a hero.. I'll never meet this person, but I know he helped calm the community down. God is our hero too. Please please hang on. Write the Justce Department. Plead for their help. Help to abolish this terrible crime against humanity. Let all of us join together in our hearts and souls..researching the web. And if we find the downtrodden, the hopeless, the hurt.. Let's lift them up, above all of this.. Valid at their fears. Pray with them, please, we can become a circle, of strength, love, peace, we will keep our circle strong with our support for one another. You're not crazy. You're not alone. You are here on this earth because God planned you. Don't give in to the harassment. I'll pray for you and yours everyday. I promise.

I know why this is happening. And why this is happening to certain individuals. Its to gather all info to ultimately use against the main target. The only people that will understand is the individual targets themselfs. What I have to say will give answers to each person directly in a way that they will understand. I need to speak with roger tolles. Everybody must hear my story. I know the main reason for all of this. For I was given the main reason before my story started. But who would believe that. I had no clue that their was so many people going through this same thing that I was until today. Oct. 2015. Unlike all of you. I knew why they were doing this to me personally. My story will blow your mind.. Everybody who is being targeted is for a very bad reason. Because we all have personally have a unique contribution that contributes to their complete destruction..their main target. So all of us together ..the targeted in the same group at the same time. We be able not just to understand what I have to say. But will have the power to stop them globally. They do this and I know personally because I no their main target before they even started. So to me unlike all of you . it was so obvious . but I thought this whole time who could possibly believe any thing I had to say. And now just today.. All of you people will. I listened to coast to coast radio on this target individuals with Robert tolles and that's all I needed to hear. Please help me. I need all of you to help me. This is the main reason they targeted me.
They do not want any body to hear or believe any thing I say. All of you will get it. I have no idea how to even start this. They kept me from all possible comuncation control. I don't even know if any body will even get this. Some one please email me if they get this message. Joe

I am currently being gang-stalked and the information said was something I had said to a federal government employee or via my communications by a hacker. from what I see, it's a band of the losers who obviously get upset by a comment here and there. the other night I was drugged, threatened with death, intimidated with assault,intimidated to quit my job(s), told I needed to save money for jail food, and so on. If you want to join them, I'm sure the losers could use a few more to push me over the edge since they have once again failed. I don't bother calling the police because what's the point? These pathetic individuals just don't get that most of the things they are upset with directly relate to what they've done. Still alive and I'm not sorry losers. I don't know the real reason for this and I frankly don't care. I'm glad you're upset and hope your pain doesn't heal as mine doesn't. Thanks for the fun night, sincerely ME, THE MOST HATED AKA ASSHOLE.

P.S. – I'm glad they're stupid enough to be manipulated by lies. Have another large pizza and extra large diet coke on me.

I am being gangstalked, in Greene county, il, in my area, there seems to be hundreds of targets of this torture. I believe that I have been silently stalked over most of my life by local law enforcement, but in 2001,it was made to be loud in my mind. I also believe that a person named Kent Greenwood is responsible for targeting me and my family at that time, he was a neighbor who had just returned from the military, and didn't like me. I observed him and his family doing all sorts of things like trespassing in my yard, and beating on the walls of my home, at all hours of the night, to scare my children and their mother, it is becoming a terrible problem in Illinois, and is likely the reason why Illinois is such a bad state. I also believe that they torture members of Congress, both state and federal, to further their own agenda, and prevent their own prosecution. They are cousing this country to go broke, and for the crime rate to go up, I also believe that they are who is cousing all the gang violence, and war, not only here at home, but around the world, and are most likely a part of all of the terrorist organizations that are troubling the world today, I have tried to educate some of the people around me, and even told an open court room, three times, that I was being gangstalked, but it doesn't matter to the courthouse official. Thanks for your time, sincerely Mike

The worst part is how they convince everyone to use this against me, former friends, my family, anybody. I believe there pathetic reasoning is that I do not respect anyone, which is true now, or I whinge about this. What I think is what they do, only the negative of course. I can go on and on. I too am a victim of government organized gang stalking.first was racism hate crimes by police for having black friend which lead to more hate crimes under color of law.then to death threats to murder to rape then attempted murders made to look like accident. torture exsposed to all kinds of toxic stuff fungus blackmold putting mangemites in home other bug crap.to killing pets to putting toxic stuff in my food drinks.trying now to get rid of evedince which is my hair teeth nails.which would prove being exsposed to chemicals toxins poisons black mold steroids trying to make hair fall out some type of acid making teeth fall out.why doing this to me to cover up there involvement in murder rape torture attempted murders made to look like accident. or try drive you crazy hoping you kill your self.getting others to bully you.They sabotage your cars break into your home steal kill pets to future pets people.why to keep victim's from talking or telling something they don't want the public to know they done wrong. cover up.silence the victim's of there crimes.they are truly evil they recently smashed out my car window sabotaged many cars involving all kinds of people cops mostly getting drug people and none drug people to do their dirty works for them threw bribes pay offs or blackmailing them by holding prison over them.forcing them to commit worse crimes against the victims.the people involved willingly are purely satanic. normal people could never do such things to anyone.Only Satan's little slave's could destroy peoples lives health looks belongings. this is what happens when people stand by and do nothing.This is what happens when good men do nothing.then nothing good gets done and evil prevails.All who stand by and turn their heads and do nothing are as guilty as the ones who are doing it.

Hi fellow TIs… Unlike most of you I know why I'm being target and by whom. They reveal themselves in acts of arrogance thinking they cannot be caught. Jokes on them. My story: in November 2013 I accidentally discovered my roommate was involved in a HUGE Identity Theft ring in the Dallas, TX area. Upon my discovery I called my attorney in Seattle and asked what to do. I estimated about $50 million had been stolen by she and her violent felon boyfriend and a few others. I had no idea who they were when she moved in. Attorney said call the cops, turn in evidence and pack car and leave town, that night. So I did.

Cops came, collected evidence. I expressed my concern for our safety due to the size of the operation and boyfriends violent offender status. Cops told me I was over reacting. They took evidence and left. I packed car and my kids and headed for Seattle where we have family. 4 days later the perps broke into my home in Texas, ransacked it, sent me photos of themselves inside my home, holding up old mail with Seattle addresses. Bombarded me with texts threatening bodily harm and that they'd find me.

Would it surprise you all to know that the police department NEVER EVEN INVESTIGATED THE CASE?

I begged for help from the police in Texas, got nothing. Contacted DA myself, no response.

Then things seemed to quiet down so I thought the crooks forgot about me. So I thought.

In the meantime I fell in love with and married a British guy, real charmer. Who once he relocated here permenantly began a psychological and physical assault on me making me a prisoner in my own mind. I was drugged, beaten, assaulted, victim of satanic ritual abuse, lost 3 months of memory. Everything I own has been hacked. Every person I've met since moving back to Seattle has been one of "them." And my husband told me he was "here to destroy me."

The refer to themselves as "family" so I believe they are NWO RKM/Freemasons/illumi-lizards. And yesterday I found a listening device in my bedroom and for about six weeks now my children and I have been victims of VHF sonic attacks making us all sick.

Yesterday I started fighting back. Contacted my attorney because I know if I don't do something this will never stop. My attorney made some phone calls and have enlisted two PIs , two family law lawyers, and a friend who does intelligence work for the government. He's made calls to the DA here and once the PIs are done with their investigation we will make a police report and bring charges to my loving husband and every single person we can prove is connected to this, including the police department in Dallas who never investigated the ID theft case to begin with. Thousands of victims and $50 million stolen and I gave them literally a room full of evidence … And they did nothing.

So friends, I too am a victim and am here to tell you these scum will stoop as low as marrying the target in order to get optimum intimate infiltration.

My feeling is that likely in most cases you are not being hounded by government agencies. It's more likely the case it's these NWO scum. LOW level technology. The mic in my room could have been made by a 4th grader, very easy and they used old existing phone line. The RF attacks are coming through our cable/internet provider. Cell phones all been hacked on the T-Mobile network.

So check your homes where telephone lines run into home. Look for wire freshly cut, two wires with an inch of rubber stripped off exposing copper and bent like fish hooks, the other two wires, wrapped neatly around cable. That is an eavesdropping device. Perps can hack into local phone company, flip the switch to activate line and listen in 24/7.

Second if your getting the DEW attacks, try disconnecting your broadband, physically, from your home. They hack into that system and piggyback a signal on the one already going into your home.

Cell phones, get a burner phone, pay with cash. GIVE NO ONE YOUR NUMBER UNTIL YOU ARE FACE TO FACE.

I was suicidal a few months ago. Now that I realize how low tech and cheap these guys really are I have gained a tremendous amount of confidence in the last 24 hours. They're not so scary after all, AND they are about to know the power of the technology the good guys have at our disposal… And they are going to be EXPOSED, which is the thing they hate most.

Message me if you like, just know all communications are monitored.

Stay strong!

If they do, most likely they know about it.

They are trying to isolate me. My home is illegally entered almost daily. They have poisoned me and who knows what else. I have photos from before and after of the damage that they do to my house.

O K folks, here's the deal. Rent a perp and rent a bully! That's who's doing this. One group of people blame another and another group of people blame a different group of people, etc. etc. Whomever is renting out those people to bleep with the victims are the real conspirators .I guess there are many people involved but one group of people say it's that specific group or whatever, I'm saying many groups want to punish some person for whatever reason they got like drug dealers and many criminals who want to get away with one thing or another and have a huge group of people gang stalk their target who got them into trouble or almost got someone into trouble or whatever. However, there is more to this. A lot more! Like a big deal problem with the illegal surveilance maybe see through the wall type of fancy devices and recording what goes on in a persons residence which should be but is not private, etc. etc. Also there is a security guard and more than one security guard at various public libraries who like to get me into trouble for being mad and fed up enough to yell at someone to stop talking trash and basically making the same rude weird trash talk heard many places I go and I get into trouble for yelling at someone to shut the hell up and stop bugging me which makes me get into trouble for being made mad enough to yell at someone to shut up so the perps never get into trouble only me for raising my voice etc. However the usual targeting and weird goings on are less frequent and there are breaks from the usual on touch torture which was noticeable as far as it being actually organized not just regular every day small annoyances. Now that I'm finding out more and more all the stuff that goes on with so many people being affected in so many different was I gotta admit it's not just name calling or noise harassment but plenty of never should happen type of stuff too numerous to mention! I honestly can't believe half this stuff could go on for real till it happens to me for real but I'm only dealing with less bad stuff since the people pulling this stuff on me are aware that I know what's up and I'm aware of a lot of conspiracy theories that are only too true stories not conspiracies at all. Anyway, it's where I live and people who work there and they know I complain about stuff like this online etc. Like The Dalt Hotel in San Francisco and Berkely public libraries and pretty much all of them but it's less of a problem since those bozos know I know what's up etc.

Technically these people don't exist, am i right? So, therefore they are invisible people that are not in any records of any American database. So, if you went up to your stalker and shot them in the head with a gun, would they magically disappear? Would anyone report someone like that missing? Food for thought I think.
If this is an invisible crime, then, the stalkers wouldn't be reported missing by any department or organization? You all should take video footage and compare it to other stalking victims, you will all find out who these people are sooner or later.

I have been being gangstalked since 2007. I have seriously considered shooting them and the men who are behind the inception of my stalking. (Powerful city officials dealing in private sector real estate embezzling federal low income housing funds) I am considered a whistle blower because I stood up for my civil rights and social justice when I was caught in the web of their scams. Long story short, I will not become what I despise. Yes, it is definitely shadow government. No doubt in my mind. Not being trite and I know this sounds like a cliche' but God works in mysterious ways. I have no doubt I will eventually escape these psychopaths once and for all, hopefully in the near future. The battle truly goes beyond the flesh. It is a war physically and spiritually. These cockroaches are spawned from Hell itself.

I've also been attacked, gang stalked and assaulted with direct energy weapons in the same manner, as described in this report in connection with a speech that Martin Sheen gave in Vancouver in 2010, that i put up on youtube under "the worlds most powerful speech" and I was getting close to a million views, I was forced to take it down after getting into an argument with someone that didn't like the speech on youtube and they showed up at my door like a pack of wolves turning my life into a living hell, and I live in Montreal, PQ, this is US military, CIA working in Canada with the help of our military and local community watch agencies, they seem to hire a lot of immigrants who dont know the laws or are fed some lies to go along with 'the program'. THIS IS JUST BS!!!!!!!!!! Unbelievable that this could be happening in the land of the free!!!!! I know of another activist in Montreal that was also subjected to the same crap, just unbelievable methods of terrorizing targets.. threats, drugging, etc, I was also an inventor which caught their attention as well,..And these people are supposed to be protecting us!??? ! They need to be jailed or deported! They don't deserve their citizenship! This seems to be worldwide, For more info on this, see interviews with lawyer, war crime judge, Alfred Lambremont Webre and Leuren Moret :Jade Helm, Homeland security, Domestic pacification and mind control.

I have been covertly stalked and I am coming to believe that it is an intent to restructure the country based on Republican and insurance-cooperative companies. Often when bad things start to happen, people look to cultural differences. That, or any bad blood that may exist. This can easily spark off a civil war. Much like the restructuring of the Czech Republic, I would be surprised if we don't see this trend come to be if Trump gets elected. He supports torturing me for "prescription use" that literally saves my life from sticking my fingers down my throat and puking every day. I have a legitimate medical condition that not only doesn't allow me to process fat due to an unauthorized removal of my gall bladder, they have know tried to coin me as schizophrenic due to the increase in compulsiveness that is easily fixable with a low, mild stimulant. The point was for me to die before I realized that the FDA did in fact approve Vyvanse for Binge eating disorders. BUT! I am still here going strong, blowing all of their secretive shame to hell one day at a time! 🙂

He dad is the overseer of the congregation. Not only is this totally illegal but goes against their faith. They have hacked and exposed everyone surrounding me. The ones who suffer the most are my children!! This has caused a tremendous amount of stress. It has taken over our world. I haven't been able to be the mother I was before. I'm working hard to ignore it. After this article I was enlightened to what is happening. What a sick and twisted game! The for the post it made me realize I have my proof and didn't even know it. I'm in Sacramento California and somthing has gone terribly wrong. I saw a bunch of poor and handycapped people essentially being gang stalked. I called the FBI to report what I had seen and the asian lady who answered the phone at the FBI office hung up on me. Shorty afterwards two of the most crooked Sacramento county Sheriffs deputys showed up at my house and harassed, bullied and intimidated me. I asked one of the deputys if I had Civil rights and he replied with. stern "No!". Here I was thinking I was doing the right thing reporting an act of terrorism I had wittnessed. So here in Sacramento I am dealing with crooked Feds, crooked cops, Cesna single prop airplanes flying over my house several times daily and now a U-2 spyplane falls out of the sky. I don't know what any of this means but it can't be good, somthing has gone terribly wrong! The government is acting like thugs and obviously under the impression they can gang stalk their problems away rather than find viable solutions for their problems. The whole state is corrupt. This can't be good, there is very Bulshevism vibe in the air. Pass it on.

I can not give my real name as I am a current victim of this crime. My car has been tampered with, took to mechanic and it was fine, next day it started to just over heat for two months. One day work up and was good??? My every move is repeated to me while in apartment. My job has been compromised. More or less staged to make me fear my job which also relays on my car. I am followed every where. I'm always hearing an ambulance in my ear or my child screaming out for me and a man telling her to scream louder she can't hear you. Even had me crawling through tunnels in the woods looking for her. I'm followed, stalked, etc. Went to police and he didn't bother jotted anything down. Then it got worse for me. It continues. Each time I make a post someplace the site's get louder. I have also had a death threat. My daughter and my son are all affected by this. They even hunted down my son I put up for adoption and that wasn't real as the adopted parents haven't set up our meeting. Their numbers I'm scared to call because I don't want to feel worse than I do. I'm all alone in this and everyone just thinks I'm crazy. There's too much to tell. If anyone out there can reach out and help me. I would give all my little profits from work I have left. But honestly I can't trust anyone.

Him and his friends. I'm 63. I just want to do my crafts and walk my dog. Meanwhile he remarried b4 we were divorced and broke how many other laws and they say "oh well" we don't care about that.

Fort Worth, Texas, 76123.
I am the victim of organized criminal gang stalking. What has been claimed to the Fort Woth Housing Authority. As a result of a sexual pedifile contracted under the FWHA. Named Rickie Clarke
Threats have been made against my life as they have placed me under surveillance. Causing me to lose my job with the General Service Adminstration as a General Clerk III. My eyesight has been damaged, they burn, shock, verbal, mental and physically abuse me 24/7. They have stolen my drivers license and had lied to Law Enforcement claiming me to be mentally disturbed. Black Balling my reputation in the community. I have tried with no results to receive help from the Housing Authority, Fort Woth Police Department, MHMR and have even relocated as these gang stalkers who do volunteer work for the FWHA are appointed as puppets to assist criminal activity that is going on underhand within their organization. Please call me as my life is in danger as the Gang Stalkers using V2k surveillancing and Mind Control targeting me and has deemed me as a Targeted Individual

I am a Federal Employee with the Veterans Administration who has been a victimized just as your article has indicated. This was a result of my speaking out when I was being bullied and harassed by my supervisor and coworkers at the Togus VA in Maine. I have evidence but findit impossible to get in direct contact with any Federal entity for assistance because my snail mail, internet, home, vehicle, etc are all compromised. I welcome any assistance or recommendations. It has been going on since earlie 2015. I will not bore you all with the list of shit they have done and continue to do. However, I am fairly confident the person who initiated these actions towards me is the new Regional Officer at Togus who has a military history as serving in the special forces and is a person aggressively moving up the ranks and Togus is a stepping stone and my claims of discrimination against an employee with a disability would have created a blemish. I am now in the process of retaining a law firm to go after that aspect of abuse but that is only the tip of the iceberg. I am willing to travel to meet others.

They say the best evidence is to get another individual that is being stalked or have been stalked, and take it to court. I am tiring of these people, and it's hard to keep a smile on your face, when your watching everything you work for slowly being destroyed. I'm a single woman in my early 30s, I live in MD, USA. I've been a TI since about 2006. I know that not only is this happening all over America, it's happening all over the world. I live in an apt building – I surmise the criminals use different tech for those living in apt's than for those living in houses. I've been fighting these criminals for a decade.

The electronic attacks began sometime around 2014. It seems like vibration is involved with the tech used on me, that is to say, whatever it is that's being shot at me comes up from the apt directly below mine, goes through my floor, and thus my body and anything touching my floor becomes a conduit for this energy weapon. I also know that vibration/sound, disrupt it. For those who ask why we don't go to the authorities; isn't it obvious? The intent of this soulless criminal slime is to evade detection, and avoid using anything that could be used as evidence against them in a court of law. Evidence for these weapons do exist. Many declassified military documents attest to this, for anyone who cares to learn about it.

To any TI's that might read this: Stay strong. I can tell you with all certainty and honesty that without God I would not be alive today, nor would I have ANY quality of life! You don't have to belong to any particular religion, I only ask that you ask God to help you. I've been through much and I've been helped in so many ways I cannot even fathom. I don't know when it will end, but I will continue fighting and praying for all my brothers and sisters being tortured and harassed by this already dead, COWARDLY evil, devoid of all conscience. These criminals will be held accountable, one way or the other. I'm as sure of this as I've survived all the times they've tried to take my life and FAILED. Read Dr. John Hall's books on the subject, the first was "A New Breed; Satellite Terrorism In America", and also read Dr. Corkin Chrubini's "Gang Stalking; The Threat To Humanity". Dr. Chrubini has sagely referred to this atrocity as a "SILENT HOLOCAUST"

We will see an end to this. In the meantime, educate yourself, protect yourself, use your common sense, and most importantly, pray.

My name is, Charles Matthews II, I am being gang stalked on a daily basis. My biological father, Shawn Matthews, is the main problem from out of Texas. He is unhealthily obsessed with my mother since they divorced in 1995. Since then he has networked people to come into our lives. He had a magistrate in Ohio County, try to charge me with a life sentence due to the hearsay of neighbors hired as actors to engage me in altercations. I am a former correctional officer. My case was dismissed without prejudice. Means no statue of limitation they can open the case back at anytime. My Ex's father is a Sgt in WV State Police, who paid off my attorney to kidnap my oldest daughter. He created a smear campaign to damage my reputation on the front page paper, contact all my friends and family, etc. Use my uncles pull as a psychologist to have me involuntarily committed saying, I had "Grandiose ideas of delusion." typical gang stalking tactic. Gets better same Magistrate has my mother and myself immediately evicted and allowed to only grab enough stuff we could carry in 1 trip. Locks changed. How did we fight back? Used paint markers on our vehicle exercising our 1st Amendment Right exposing the corruption.. Drove 6,000 miles across the country to try to gain supporters. Try to report it to the FBI, CIA, local and state law enforcement. All corrupt.. I've exhausted every resource in the US… I need money to get to UK to talk to parliament. I've had enough of this fucking malicious attempt to murder me slowly, take all 3 of my kids away, manipulate my family and friends. I'd love to hear stories of other victims. You can contact me at 304-639-6555. You are not alone. Keep your faith in God and realize this materialistic world means nothing, its temporary. I wish you all the best of luck in your life's journey.

Thank you for your comment I am currently being gangstalked and tortured by the Department of Defense and other gov't and military agencies….they are using electronic and microwave radiation to burn and torture me slowly for a defense contract fee. They do this day and night and it has been over four years. I have lost my job and have ended up broke living with my mother. They illegally tagged me and they manipulate my vision and hearing. They are also using heightened suggestability and sensitivity suggesting that I commit suicide, overdose on drugs, or go drown myself. I fight everyday and refuse to give up so they can get paid…not happening. I too know that this life is short and that I am going to a better place when this is over and that the angels will decimate the institutions involved in these crimes against American citizens for profit. May the angels and Jesus Christ bless you and your family.

I am in manassas, virginia. This is an "enlisted level" town, whereas fairfax county(bordering county) is an "officer level" town. I mention this because, in manassas,,they have a "larger pool" of "drone types"(lower intelligence) to blindly carry out their "street level" harassment.

I am a little concerned that this website has also been "infiltrated", in an effort by these thugs, to determine the effects of their "slavemaster" boss'es attack plan. I have adjusted and now actually enjoy what they do to me because I find it a "constant source" of "entertainment" to see these "double digit i.q. Imbeciles try to intimidate me. They have local gangs,ie: crips/ms13 and biker trash enrolled in their efforts. They are "hilarious". The "tech side" of the "team" is, no doubt, comprised of "pencilnecked geek punks and "bovine like fat-fatties. You and I will never get off their list so why don't you "accidentally" run one of them off the road into a tree for example. I often wonder what these coward scumbags think ,when I have ascertained one of them is involved, if they wonder if I will try to "kill them". They are "pathetic", so start "enjoying them"– Mike H.

Please help stop cyber terrorism with use of chemicals with current administration and ex ones including but not limited to Maria shriver. They claim to be kid friendly you have to be a child and all age genocider and constantly lie and photoshop people and literally animal cruelty and plain inhumane acting. They stalk your kids killed some brag about and the money transferred to do the things they have done. Need this reported for ordered military crimes since Reagan administration. They are very life taking with mimics of normal behavior and tons of lies. They killing off soldiers repeatedly on orders because they created terrorist on purpose for profitable genocide. Donald trump is involved with cyber command and nato. Have plenty of proof of this been going on for nearly 5 years. Unacceptable that they keep shooting listening devices in human body but yet they've been so against it.

Gang stalked and harassed for 9 years because of reporting suspicious activity online to the FBI. My information was acted upon possible preventing a second 9/11 style attack and a communist overthrow of the government. I was kidnapped and held against my will for one week at a hospital told I was homicidal and suicidal. I have somewhere around 100 to 200 people ready to act out games everywhere I go in public. Anything I do in my family's home is seen and repeated or mimicked in public. All my emails are blocked, phone calls intercepted, chased out of law offices and even had the Federal Court House shut down on my arrival. Television, internet, and radio content is completely customized for me. My story is leaked online if search Sarah Palin's dirty little secret.

I agree that the people doing this are cowards, but the real cowards are the ones who swore an oath to the Constitution, are paid for with our tax dollars, and look the other way allowing this sadistic nonsense to continue.

It's happening in West Sacramento I can tell you that. It's almist enough to provoke a violent reaction but even though I'm mentally disabled with bipolar 2 I can retaliate by standing strong and living as good a Christian life as I can. What suprises me is how quickly busineses and their owners buy into the negative story line spread by the gang stalkers. Today one followed me out of town 45 min. away to a funeral to get employees of the cemetary to antagonize and harrass me by fake coughing, and it happens all over my home town where I've lived for 35 years. I'm starting to carry a knife and ask people directly if they enter my personal space and start that fake coughing clearing your throat bullshit. God will make it right in time. I have faith.

All victims need to come together for support and to form a class action law suit. When u write, please provide a contact number or an email address where you can be reached. I've been a victim for too long and I'm sickened by the injustices I've been dealing with and see online! If you're a victim and want to keep in touch, you can contact me. Right now, I live in Florida. Also, please provide your location. I've had to call the police two times already and I had an incident at my home over the weekend where I'm sure I was being attacked by EMF. Called the property management, came to check my apt and vibration stopped as soon as they got to my apt. I have a stalker living right above me who shadows me from room to room and gives heads up to her contacts and as soon as Ieave my home, I have clusters of cars following me and all around me 24-7. I feel like I'm under a microscope. I have an investigative/legal background and I'm an innocent victim being victimized daily. We need to come together and do what's best for us all!!!

I have been stalked now, that I know of now for almost 3 years and I'm tiring of this. It is so wrong to do this to innocent people and I think the same should be done to them. I don't mean that, but I get so frustrated, and it's inconceivable to know that there are people who murder and have no conscience at all. I'm glad that GOD made me with compassion, love, and with a heart. I could not do this to another and think that this is right. I am not only going through the microwaves, scalar, etc., they are trying to destroy me, my home, my belongings, my friends, etc. What makes these people think this is right? Have they any meals or scruples? Do they not know what is right and what is wrong? I don't want to figure these people out, I want it to stop. I live in Windber, PA, and I will not give up. I want these people to pay. I've done nothing in my life to deserve what I am getting.

I'm in Florida and have been gangstalked by the Freemasons/deep state (secret government) for probably 2 years although I didn't realize it until last year (apparently they started out "slow" and kept increasing the harassment until I noticed it). Lost my job at Shands Teaching Hospital in Gainesville, Florida (and subsequently realized that virtually everybody who works there is a Freemason. I always wondered why, no matter how hard I worked and how much I offered to help other people, my colleagues told lies about me from day one and tried to get me fired. Now I know! I wasn't part of The Club!)

Currently I have a gangstalker in my attic 24 hrs a day (a tip of the hat to Rose, who also has a stalker above her who follows her from room to room–they must all meet and share techniques!) and my phone and computers are hacked, so my hacker/stalker has access to all my accounts. I even went to the library to try to sign up for some unhacked email accounts and those were hacked, too. I'm no "IT Expert" like David Blumberg, my Freemason stalker/hacker/nextdoor neighbor, so I don't know how he hacks my library accounts.

I'm also blackballed as far as getting a new job, except they WANTED me to get a job at the Job Corp. When I interviewed there, I was told how nervous the staff was about the students p[ossibly getting kidnapped by the truckers at the trucking company right next door. How dangerous they thought it was, that one big truck could block their view and an (adult) student could be bundled into a truck, never to be seen again! I took that as a great, big, warning NOT to take the job (I was even told I was the ONLY candidate they were considering). Yeah, the Freemasons would LOVE for me to disappear, because I'm a very squeaky wheel. All they'd have to do is give me my old job back and leave me alone and I'd shut up, but apparently it's not to be, so I'll never shut up now.

I'd love to hear from any targeted individuals because I'm all alone (all my"friends" were Freemasons, and when I meet new people and try to make friends, my stalker/hacker warns them away from me).Just remember all my electronics are hacked. pitsnmutts@yahoo.com, 352-281-6166

I live in south florida, mine started in 2009 then full on August 2011, it started off where I thought the people next door where name calling me. I had asked them to stop, they seemed nice. They said it wasn't them this happen several times in 2010, then I couldn't sleep at night I bought ear plugs and then I heard it. Someone stating rf harassment is real and they lied to me and said they where good people, in the beginning they encourages me for a better life. I used to cry thinking someone cared. It helped me be a better person and values. However every time I would save up they would cause me to relApse and say it was tough love. I believed

it in the beginning. But after months they wouldn't stop, sometimes skin sensations, the v2k was wake to sleep, seemed at time more or less intense, I have had my jaw move to the words I hate you not consensual. I have had my emotions altered. After time the sugar wore off I would get v2kd at work till sometimes I would cry. No one understands. I came from a bad place in my 30s it started in my forties. It's been over 6 years now for me. I have not been able to save. It's like they wanted to watch someone try and try and slowly pull the rug out from them. For along time I didn't get it and kept thinking I was just being tested. I lost a good job in 2015, kept saying to myself I can't do it. Not to where working but no happiness, no peace, I haven't dated in over 6 years, or had a relationship. It was progressive for me. Was different in beginning they acted like helpers in beginning. Now I hear, move away, move to a homeless shelter, we will kill you, it's forever…. I'm sad because everyone wishes for a good life. Unfortunate when someone with cognitive electronics can save or destroy and they pick bondage. It's not our fault. It's not our choice. It's one where those of us unlucky enough to get hit have to wear a coat that is a induced taken state. God tells us a home can only one master, high tech cognitive electronics, takes our home which is our own mind now we are forced to hear mimicking conversations of characters and a electronic created false story line in our minds to see if we believe them. Or distraction from life itself. I miss relationships, I miss the beach, I miss me.. the last two years I have been forced out of employment via v2k, My family had made fun of me saying I need help and that I hear voices. I take a sleep aid, I used to have dreams of a good life. I don't anymore I go out and sit on my porch and think just imagine…. here in America and why me. I will prob loose my home soon I have a elderly parent who I tried to help with. A family member who has the parents assets and I'm being told I'm being handled. They even tell me it was to help the family member use the parents $. I try not to believe it. It's too much. I don't trust anyone anymore but and still willing to smile and talk to everyone. Recently so bad caused to relApse, car stolen. Worse got it back and they caused it again.. stolen… that's all I had. To the naked eye, it's our fault. No one knows. No evidence. Nothing. I sit here now minus all my savings, fear for getting the rug pulled out on me again. No one to turn to. No help from law enforcement, they don't believe, and my family same. My fault… It's not my fault. I tried more than I ever had before in the last 5 years. Struggle. Struggle. But all gone. I'm sad I see others with happy life's. I've seen people recover. I've seen miracles but what about me… It's like feeling cast. But no one knows. Sometimes i think Bout killing myself. They used to make me write suicide notes. They call me names say they hate me and it hurts. I wish they would change, I wish they would release me and restore my savings. I guess after all of it I'm a dreamer….. lol.

jas77762, nobody can "make" you write suicide notes. Voice to skull is just some perp using electronics to talk to you and try to make you think you're hearing voices. It's just the perp being nasty. You need to try to ignore the voices by listening to music with earbuds. You can even try using aluminum foil to cover your skull and see if that blockes the voice to skull transmissions (I woldn't recommend wearing it outside of the house though or people will think you're nuts! :-)).

Just remember the voices are the perps and you must find ways to ignore them even if it means turning up your music or TV to drown out the sound. Do everything you can not to listen. Keep us informed and let us know how you're doing!

They have implanted bionic technology in my sinus and tailbone. It allows them to track my biometrics and also decipher my thoughts. One of my handlers made the mistake of showing me his laptop screen, and what I saw was disgusting. They can see what I see, hear what i hear and read my inner dialog. I tryed removing all my social media, in return they tagged me like an animal. They swarm when ever I walk into a store with the RFID sensors at the doors.

The perps CANNOT do mindreading with ANY technology. That is pure disinformation promotoed by the perps to try to scare us. Ignore anybody who talks about mindreading. It's pure BS. The perps hack our electronics, put cameras and microphones in our homes, read our mail, and go through our trash for months before we're aware of the gangstalking, so they know us really well. It might FEEL: like they're reading our minds, but they're not.

Yes exactly what this person said.. gangstalking is real but it's done by hacking and simple electronics and surveillance. Once you figure it out you will stop being afraid. Also it's very likely done by someone you know (friend or family). They recruit buddies on the dark net. My own brother did it to me.

Kelly

May 30, 2017 at 02:46

Kelly, yes, the perps threaten our family and friends to make them get involved in gangstalking us. I know for a fact that my gangstalking was initiated by the Freemasons and have since learned that at least half the adult population in the USA is affiliated with the FMs (probably more). A co-worker "casually" questioned me about my siblings and where they lived prior to me becoming aware of my gangstalking, and that's how they got in touch with my relatives.

(And BTW, if they could read our minds, they wouldn't have to do this kind of research on us–such as having a co-worker question us :-)). The perps want our own family and friends to harass us in order to make us feel despair. Don't fall for it! Our families are harassed and threatened into gangstalking us. Yes, it's awful that they can't stand up to their "masters," but you have to realize the Freemasons think nothing of using murder to get their way.

I checked into the backgrounds of several good, respectable people who are involved in the FM cult and they all had children or grandchildren who had been in terrible accidents resulting in death or serious disability. Knowing how the FMs work, I couldn't help but think this is how they force people into their cult. With the Internet, I think now there is no excuse for people to not shout out their refusal to be manipulated by this cult, but for older members who joined pre-internet, they are probably still controlled by the fear they felt back in the days when there was literally no place to turn with opposition to this satanic cult.

Also, I have learned that some professions (for instance, physicians) have to join the cult in order to be able to practice. They will never admit to being members, but they are.

May 31, 2017 at 15:25

They can read minds, Facebook is about to unveil this technology to the masses fairly soon. They have been doing it since the 70's… Its now very portable, they use cellphones to drive by or walk in proximity and download the contents of the cache. I have one implant in my jaw, one in my left sinus and one in my tailbone. I have three RFID chips, one near my kidney, one in my thumb, and one in my forearm. I have met others, most have suffered extreme strokes from the metals degrading into the brain… I'm already starting to show the symptoms, bloody nose and extreme pain in my tailbone… Yes they can read minds, today… They don't even need the implants. I reckon I was implanted as an infant… I have surgery scars no one can explain… And no hospital records for the surgeries. They claim the technology is intended for IPOs (intelligence police officers), they also call it "IP TV". They broadcast my thoughts to their group… Its only good for about 6 years… Then they have to "learn" you again, through CC TV or music with known lyrics. They also do it through pain stimuli, ie. Ray guns, in the hopes that you rant out loud.

Thanks to being brought up in a military family none of these lames really bother me persae. But yes the neighbor will break in ur house. The neighborhood like thugs steal my mail. Accidents staged. Was hit prego by a vehicle backing then the ambulance was hit twice in route to hospital. The chief demanded that regular patrol leave the scene. Hired a lawyer a t.v. lawyer: shelved my case. Then after I had the bb the bus was hit an I was seriously injured others too. The bus company has video, I requested it, nada. The first employee was bringing it down. But the messed up thing my stroller had tracking device, and they were alerted then I was denied the video. I paid for it mind u, they exclaimed they didn't get the money order. Well Mr. Stalker 101 someone around me that I dated stole allllll my receipts medical insurance cards etc. OK so to date I have been drugged posioned had to fight plus juju used continually. Now all this to I'm walking strolling y child down the street and L. E. cracks into another vehicle steps away from me and my child. WoW talk about trauma! Ruptures our drums injured my brain w/shock movement. Yep 😣😔 now here goes the icing… Now several hospitals to providers falsified med records to denial of care. I have spinal cord injury that they swear they will not compensate for. I called the city and not everyone is a party to the bull. Yes, so like don't give up be diligent professional back track log events. Seriously, Trump has set aside a special prosecutor. Understand it's not really his doing it's those at the head of things who are waiving a flag. But make no mistake when these kinds of ppl wave flags it only to abort the operation regroup an try some other crazy crap. However the plus side is you could live in any country ncuz this trains u to be on ur toes. I was born with ADD not ADHD I have short attention span so I keep my thought process moving. You have to pause breathe watch as well as pray. Ironically my dad worked for Lockheed Martin since a teen and was stalked. We have both been offered jobs from Homeland security. I have trained stalkers to agents to Homeland security to L. E. that's how durr some of them were. My mother worked for DOD and is a genius. She is a professor or was and also teaches gifted children. So with all the vularity aside 9 out 10 u we're chosen for stalking due to ur abilities I. Q or some other precursor . Fear God only . Even though u get nervous that's OK stay calm and carry on. The other important thing is teaching your family resilience. They need to know the world is the world also like a box of chocolates : just don't know what you'll get? I lived in the DMV and experienced some unreal bleep. From fighting like I was fighting terrorism. EMS on top of my house no police help assault rape etc. It's as if they were looking for the Xmen factor or something in me. The staged accidents to street theatre was a trip for sure. I love NASCAR, and know how to drive and understand cars. So the dynamics of my encounters did add up to staged accidents. I also was given scorpion venom Arizona type to be exact while prego from rape. Yes, I'm fine bcuz I knew this much: that my bb was from me PERIOD:). THESEfolks attempted murder yo my bb not overpowering God though. He was born 9lbs…Beautiful red headed pale beauty. The help along the way was secret. Yep there are secret societies lots of them. I had help. For sure 😊 Slow down take a deep breath study be wise pray and have faith. RIP TED GUNDERSON AND SENATE MEMBER FROM GA who was murdered in her home her &

her husband for uncovering the I'll the system does to cps kids(poorbbs&families). You gotta trust in God and cut the microwave off cable & battery out phone some times. background check new folk in hour life. Especially women check phedophile lists etc. If your a man or woman watch your condoms- holes pop up quick… All for the sake of strain of unexpected pregnancy. The genetic industry is in hi demand for vulnerable study subjects. This is pitifully the way America has turned over the last 10-20yrs. Bad politics bad deals w/Islamic radicals who only want demise for US n weak public suppose to be servants who turn rogue for a dollar . Straight sell outs or gluttons for power…lastly paper trail. Put complaints in writing w/witness also pay process server for delivery. (Double Che ck that too:) it can be compromise). Hope it helped to know -read that your not alone & stay reading…

2 years and 5 months of torture. And even knowing who. But yet no means of policing. Are their no ways of investigating this crime? When you know who?

I am a t.i. the shadow govt or black ops org are abusing their power. In my case it is mafia related and I truly am currently under a gang type surveillance. For anyone who is a t.i. i hope this info helps you. My perps may be different than others but I feel I have a grasp or basic outline on who I have dealt with. If you have ever had an item lost from your home and a week later returned in the exact place it first went missing. if you know anyone who used to be heavily connected to mafia and are having'street theatre' issues you are a t.i. I recently had a friend take his life who was complaining of street theatre harrasment. It sounds odd but there is an agenda from our shadow govt to harass citizens who they don't understand. Street gangs that are paid to spy for different reasons, could even be from some money won or lost on a pro athletic competition. In this case the athlete who wins has to be monitored for their own protection.

Now here is what to look out for as I (and my now deceased friend) have been a victim of their sicko mk ultra tactics and am fed up. As with any black ops power hungry group they have control issues. I have been stalked by a mafia gang that believe it or not is there for my protection. But if they see me engaging in activity that they may not understand they will jack with me. The other group is more politically motivated, they will also bug you out in traffic. Its all about a reaction from you, there m.o. is to provoke you. They may know you do not want to call 911, usually just young rt wing puppets who have been brain washed to act stupid. Remember the mafia and other underground orgs. Are very elusive – so be careful. One of their favorite moves is to provoke and then have a 2nd party video record your response while your not looking. They also use some sort of GPS to drive up quickly from a hidden side street and stop – just before entering an intersection. This is definitely a form of mk ultra, I believe it is possible that these could be some examples of what our great patriot Edward Snowden was referring to. When my friend who was only 32 took his life – and his best friend relayed to me that he had complained of the same problems I was dealing with – well let's say I ain't afraid of cowards. I hope they all figure out how to think for themselves some day and stop there ignorant power trip.

I've been gang stalked for 2 1/2 years now. I'm in a rural location, so their tactics are different. They are more careful. I've never had anyone approach me other than, maybe in an automobile, on two occasions.

In order to gang stalk me I'm convince they are using cloaking technology. Meaning, you can't see them. They are probably using midgets too considering the counter measures I've taken and how they still get into places no grown adult could reach.

I have reason, pretty strong in fact, to believe they are using teleportation technology. Believe it or not. They now use me as a training ground for their new inductees, potato head trainees. I am surveilled by aircraft regularly. I have evidence for all of this.

Dr Preston James, a contributor to Veteran's Today, claimed to be the largest subscription website in the world with more than 650,000 subscribers, stated in a video they VT's intelligence indicates more than 20 million Americans are being gang stalked. He's a great source for the EMF technologies they are using and worth listening to.

I have 5 Nest cameras on my property. The cloaking fails in one regard, it doesn't keep them from making audible sounds which I daily pick up on the cameras.

Their primary weapon against me is what I call a "clacking gun". That's the sound it made when they first started using it 2 years ago. They have changed it. It is now quieter and able to penetrate most of the counter measures I've install in order to get a sound night's sleep. I don't think it will go through the body of a truck or tractor.

They are cautious. They have reason to believe they might be in the sight picture of a firearm. They don't like the sound of a gun shot. Not that I've ever intentionally aimed a gun at any of them. How would I know? I can't see them. But I've tried not to do that. That's my alibi in case one of them should ever get shot. My guiding rule has been to shoot in a direction I think the perp is not located. Their problem is they never know if I may change that rule, and .308 rounds, well, they better have an Iron Man suit.

I can tell their location from sounds they make. Especially the clacking gun. Its not silent. It shoots what I refer to as an acoustic bullet, or maybe a microwave bullet. It does not cause an entry wound. Rather, it seem to target the colon and can cause rectal bleeding. If you'd like to hear it go to Youtube and run a query for "Bob Smith" and maybe put gang stalking after it. Its the Jan 2017 file. Be sure to turn your speakers up really loud, max volume. It starts about 41 seconds. You can hear the gun shot, then the acoustic bullets transiting the air, and finally, it hits what I believe is a tree, but certainly some solid object. They made this shot within 2 seconds of the time I awoke from a nap. Suggesting they know exactly when I wake up and go to sleep. It was a demonstration to me is my guess. They demonstrate not infrequently. Like teenagers showing off their new boots and whatnot.

And will be all harrassment and meant to torture u tell u do something like sct out in violence so ignore them dont argue with them and no one will believe u if u tell them whats happening it will make it worse and u lose friends and family . start looking into it more . look up dr. I would say I'm the number one Target in the world. They have tried everything to take me out, death by vehicle, suicide, prison, $ the Govt. Black Ops even tried the mental health angle. Everything by the book. I am still alive for now suffering from major nerve damage and muscular dystrophy thanks to all the magnetics. Yes the digital evidence is insane using cameras and altered angles with mirrors, but don't waste your time on digital evidence, they own the digital and WiFi world, your evidence is gone as soon as you try to show it to somebody. Instead use scientific instruments to prove your case such as thermometers, magnetometers, multimeters, poloroid cameras, try to print your evidence asap, also keep a daily Journal describing your experiences, I also learned much through animals and nature. Also don't bother going to the cops they are in on it, and will only question your mental state. They are using your body as a ground creating dirty electricity by manipulating

everything you own appliances, tv, vehicle. They are very good at changing manufacture stickers and SN'rs. Nothing is grounded around you, including water line electrical recpticals nothing. Anything that is raw steel around me will rust out within weeks, when it should take years. Trust your senses and B smart, strong and drink lots of water to survive this genocide. People will label you because they refuse to look at the facts. Ultimately they will judge you only because it is too horrible for them to even consider and that their tax money is going towards these sick operations. Still stand strong, and prey that the 2nd comming of Christ will come soon!

Lockheed Martin is the number one domestic terrorist in America. They are at the apex of the deep state and operate in 46 states. They have extracted the largest contracts from the government to terrorize American truth tellers who the estaishmemt consider undesirables, and innocent, law abiding, non violent political activists, and people that the local government's and banks will murder and steal their property and assets.

Lockheed Martin has access to every aspect of your life. They have access to your postal mail, internet communications, daily habits, you name it. They have microwave weapons systems used to target truth tellers in a deadly campaign to preserve, protect, and elevate the psychopathic establishment.

If your spell-check and auto-correct are failing, you have likely been targeted by Lockheed Martin in a campaign to discredit you, because those in the establishment are too stupid to offer an argument to counter your criticism of the psychopathic establishment. They want, what they want, when they want it. That is their only argument. They are fascists, which is total proof that they are 100% evil, 100% corrupt, and 100% stupid.

They are so stupid, that they couldn't fight their way out of a paper bag. They would hire an army to do it for them, and tax you for It!

Paddock was a Lockheed Martin auditor for 30 years who had passed security clearance. Hardly the image of an unstable man! He without question had damaging evidence on Lockheed Martin because the company is totally evil and totally corrupt. They are terrorists. They use microwave weapons against truth tellers. They campaign to spread rumors and lies about their victims.

The Las Vegas concert was simply being headlined as the Mandalay Bay concert. I had to search to find that it was called The Life is Beautiful concert which was deliberately kept out of the headlines which is further proof of the significance of the concert name for the shooters motives. I suspect that he was receiving Life is Beautiful ads every time that he had bad luck or lost in Las Vegas.

Paddock was a multimillionaire who had moved multiple times in the past decade and I believe that he was being gang stalked by Lockheed Martin.

Microwave weapons being used on Paddock could certainly explain him lying in bed screaming , oh my God!

Mark Zuckerberg has conducted illegal and unethical psychological experiments on Facebook users attempting to change their mood through the manipulation of positive or negative news stories. He is a deviant psychopath that should be locked up! You do not need a Facebook account, or an account owned by any of their subsidiaries. I have never had a Facebook account or an account owned by any of their subsidiaries and have deleted Facebook apps that keep reappearing hidden on my phone.

The only way to fix this country is to change the system. Changing actors in the same play won’t help matters any. It always has the same ending regardless of the actors.

There is systemic corruption in this country embedded deep within me at every public and private institution in America. We cannot go on this way. I have had to quit 3 jobs because of corruption that I refused to be a part of, even if it was just being a complacent bystander not directly responsible and when we have a system that rewards amorality, which the current system does, we have a real problem on our hands when those who stand up to corrupt employers and institutions are not able to participate in America. Don’t consent to remaining silent, and looking the other way, while your corrupt employer pays you off for your complacency!

Compounded interest is The 8th wonder of the world- those who understand it earn it, and those who do not pay it.- Albert Einstein

If America has a capitalistic economy, we must really suck at creating capital with a $21 trillion national debt and $500 billion trade deficit in 2016! Where is the capital?!

Life under The Federal Reserve Act of 1913:

Watch “HELTER SKELTER THE BEATLES NO COVER VIDEO ORIGINAL” on YouTube

Wake up and drink the coffee! Smelling it doesn’t work!
This is not capitalism! This is Mussolini style debt financed militaristic bankism!

Lying about history and reality does not change history or reality, it only changes the person who is lying , and for the worst! Hillary Clinton is a walking example of this!

Congress must be charged and held accountable for power crimes! All laws which they have passed in violation of the Bill of Rights and laws exempting themselves from accountability!

We need a ballot initiative to repeal the 11th amendment so that nothing like this ever happens again!

The fucking monsters essentially nullified the first ten amendments, and rely on the 11th making them accountable to nobody!

11th amendment:

“The Judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States by Citizens of another State, or by Citizens or Subjects of any Foreign State.”

The central banking third-way, triangulation strategy of the neocons and neoliberals, is to unite the country (and the world) around perpetual war, the anhialation of the Bill of Rights and the constitution, globalist free-trade policies in a race to the bottom, pitting US workers against those earning $2 a day, through a central banking debt financed money supply which enslaves virtually everyone in the world with only a few notable exceptions, North Korea and Venezuela who have rejected

privately owned Central banks! The false flag against communism and socialism is nothing more than that, with communist China and socialist EU countries to varying degrees as proof! We must do the opposite! We outnumber them on a scale of 1,000 / 1!

Unite the sane and independent center! Commit to not choosing sides in the neoconservative / neoliberal civil war !
Don't take it to the streets! Take it to the internet! Legislation has never been changed as a result of people protesting with signs!
Let the pen and the truth be your deadliest weapons against the corrupt, war-mongering, psychopathic establishment!
Watch "Pink Floyd – Another Brick In The Wall (HQ)" on YouTube

Don't be a useful idiot that elevates the establishment's two party system!

Both parties have destroyed the Bill of Rights and both parties are war mongering treasonous tyrrants!

This strategy could destroy the two parties which have destroyed America!

Americans should unite around issues that we can all agree upon. These issues are all ignored by the establishment elites of the neocons and neoliberals.

1.We must repeal the Federal Reserve Act of 1913 and abolish the Federal Reserve. Congress must resume its responsibility and coin money and regulate its value as granted to Congress in Article 1 Section 8 Clause 5 of the constitution.

The fundamental flaw in main stream economics is that it begins by accepting the validity of the Federal Reserve Act of 1913, the IMF, BIS, and World Bank which are all part of the privately owned banking cartel charging interest to sovereign nations which is nothing more than a bank tax on citizens for which they have no right to claim, therefore making it a circular argument based on a logical fallacy!

If we continue down the yellow brick road of the Federal Reserve Act of 1913 and privately owned international central banking cartel:

1.)We will destroy the economy when we reduce the national debt, because the money supply is based on debt.

2.) There will be an endless boom bust cycle because when the banks issue loans, they create money in the equivalent of the principal of the loan, but do not create the money required to pay the interest on the loan, leaving a shortfall in the money supply of the interest payments required.

3.) We will go deeper into debt or destroy the economy because the only central bank solutions are to issue more debt or destroy the economy.

If Congress were to resume its responsibility as stipulated in Article 1 Section 8 Clause 5 of the constitution and coin money and regulate its value debt free, and if other nations would do the same:

1,) The budget would automatically balance.

2.) There would be no need for income taxes, estate taxes, capital gains taxes, and corporate taxes.

3.) There would be no need to reduce spending.

The rise of cryptocurrencies has litigated and won the case before the world, precisely how easy it is to get rid of the central banks!

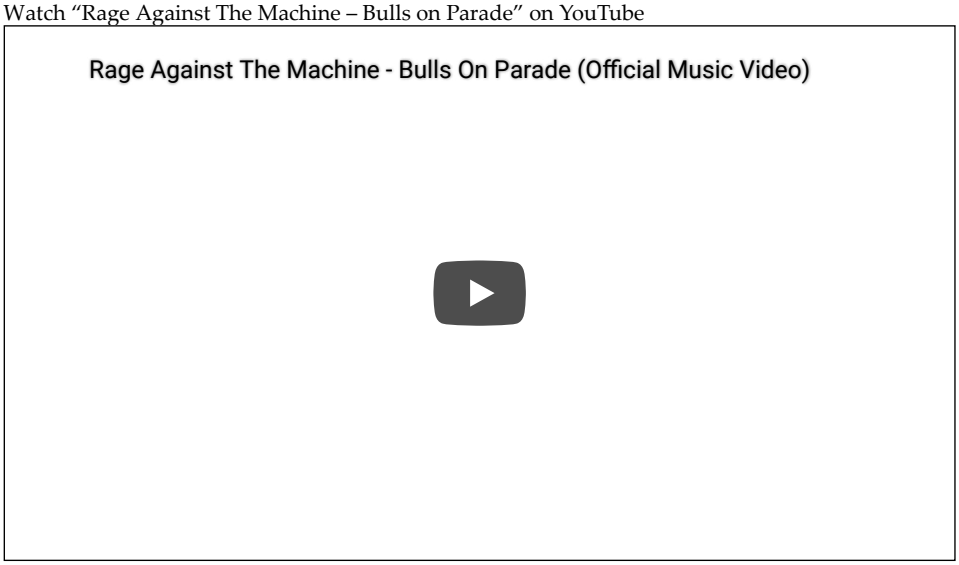
I prefer cash, which would not use the gold standard because history has proven that every time that it has been implemented, most of it ends up in the hands of a few wealthy families, and it and they destroy the nation!

During the middle ages in England, King Henry 1st implemented the tally system and the bankers and goldsmiths did not control the economy, the average man provided everything necessary for his family by working 16 weeks a year! The rest of the time was spent learning, traveling, on the arts, and volunteering for the church!

For more on this topic please read The Web of Debt and the Shocking Truth About Our Money System And How We Can Break Free by Ellen Hodgson Brown J.D.

2.The military should be used for defending our borders. We should close the 698 permanent foreign military bases and 400 temporary military bases. Our international meddling is jeopardizing national and international security, human life, and economic prosperity. We should retract from all war on foreign soil.

Watch “Rage Against The Machine – Bulls on Parade” on YouTube



3. The prison industrial complex and the war on drugs must end. It is a horrific human rights abuse and is completely unacceptable.

4. All laws which violate the Bill of Rights must be immediately repealed. The NDAA, The Patriot Act, HR6393, The American Freedom Act are all grotesque unconstitutional violations of the 4th amendment.

5. Freedom of speech and of the press , and the right to assemble, must be protected.

The government has removed the common thread that wove the fabric of our nation, our liberty, in a futile attempt to take the heat off of them, where it rightfully belongs, and to incite civil war, leaving corruption as usual in charge!

Those arguing for increased decentralization must be criminals wishing to escape justice since they continue their circular logic argument despite the overwhelming evidence that increased decentralization would lead to increased tyranny, corruption, and income inequality. My guess is that they are involved in pimping, human trafficking, illegal porn,illegal medical experimentation, and blackmail.

People continue to argue for treasonous decentralization and the anhialation of the constitution, despite the overwhelming evidence that decentralization in absolutely no way guarantees benevolence, efficiency, or freedom. They have failed to provide a single example of success. It happened during the French revolution, and has resulted in absolute failure virtually everywhere else.

In America we have a centralized federal government, and decentralized state and local governments. If you hate tyranny and a government accountable to nobody, just wait until someone with absolute power over you is within miles of your residence!

In the decentralized process,:

1.) 25 cities have committed to 100 % renewable energy.

2.) California has decided to imprison any healthcare worker for not referring to a patient by the patients gender orientation, whether it is a biological contradiction, or not, and for refusing to let a patient share a room with the sex of the gender of their gender identity choice.

3.) Oregon, Colorado, and California have legalized marijuana, and other states have legalized some forms for medical purposes.

4.) New York City has decided to offer free college to its residents.

5) Vermont has a single payer health plan.

6.) Rick Scott of Florida has decided to drug test all food stamp recipients, benefiting his friend’s drug testing company.

7.) Michigan governor Rick Schneider decided to place local communities under receivership and appoint politicians and remove elected officials from theirs, and decided to save money by poisoning residents with lead poisoned Flynt River water.

8.) The Army Corps of engineers had warned the governor and mayor of New Orleans a decade prior to Katrina that the levees wouldn’t hold. Louisiana received federal funding for repairing the levees, which they had decided to spend on other things.

9.) Sherrif Joe Arpaio had a fetish for Mexican men in pink underwear, so he decided to imprison Mexican men clad in pink underwear to gratify his kinky fetish.

11.) 46 states have installed microwave weapon technology in cell phone towers to be used against law abiding citizens for the purposes of stealing their money and to weed out political dissidents and those whom they consider to be undesirable. Only an undesirable would not be dissenting against the policies enacted by this fascist government!

Let’s just decentralize banking, war, corporations, education, and global governance.

We can all acknowledge that the constitution currently exists in theory and not in practice, yet, it is still deemed the law of the land, and all who violate it are guilty of treason.

I am absolutely sure that the overwhelming majority of Americans would like to see stronger enforcement of the constitution as opposed to completely abolishing it!

Total decentralization would be the final coup de grace to any belief that we are entitled to the liberties afforded to us in the Bill of Rights.

Korea decentralized. Germany decentralized. Charles Hugh Smith wrote an excellent essay on the Fall of Rome, and the consequences of Rome’s decentralization.

http://www.zerohedge.com/news/2017-09-21/embrace-suck-debt-serdom-and-ou…

11 mayors were recently charged with pedophilia by the FBI.

Decentralization could lead to enslavement by local governments, refusal by local governments to let their residents leave the city or state, civil war between local communities over natural resources, walling ports or cities off and preventing the transport of required items and matetials critical for survival or export.

What's up Doc?!
Medical spending accounts for 18% of GDP, 12 % of GDP spending is totally wasted in a medical establishment free for all that is killing tens of thousands of Americans each year!

Everyone knows that the medical community is first and foremost and also for most, a snake venom racket that profiteers off of the misfortunes of others!

2/3 of prescription drug spending is spent on psychiatric drugs ! Not only have they been proven not to work, they make the underlying psychiatric ailment worse, and also cause extremely dangerous and costly health problems! 20% of patients use 80 % of the medical benefits! These drugs have been proven to lead to obesity, diabetes, heart disease, chronic pain, and many other severe and frequently life threatening health risks such as the potentially fatal neuroleptic malignant syndrome. Atypical antipsychotics have also been proven to increase obsessive compulsive behavior including compulsive gambling and substance abuse. There is currently a class action lawsuit against Abilify for this!

Watch "Suicidal Tendencies – "Institutionalized" Frontier Records" on YouTube

There is zero incentive for anyone in America to discuss this because they are all making trillions off of it!

Under stress, the brain activates the fight or flight response. Since we live in a fascist society which has the worst human rights abuse record on the planet, the majority of people opt for mental flight. They stay where they are, but mentally check out through the use of drugs and alcohol!

All treatment centers rely on 12 step programs that have a 6% success rate, effectively showing a 0% success rate since 5% simply quit on their own without treatment, this is a statistically insignificant increase in recovery success in contrast to no treatment. These programs have high suicide rates and add to the increased depression and alienation of those who question the "wisdom " of Bill Wilson!

Since treatment centers make $12,000 to $50,000 for treatment, they are highly content with the revolving door policy of alcoholics and addicts relapsing and returning!

The problem with 12 step recovery programs is that they are fascist in nature, increasing the fight or flight response and subsequently, relapse.

They promise a new freedom and a new happiness while trying to prohibit free speech and take control of your thought process and daily life.

The 12 steps in and of themselves are excellent, but the Big Book which members place above the bible is completely insane and new comers whose lives have been turned into shambles are told that everything is exactly as God intended it. If that is the case, I guess that if they drink or use drugs, that is God's intention, so why even bother going to AA? The newcomers are also mentally assaulted if they reject the flawed ideology. They say the serenity prayer, but only believe that they are supposed to accept all of the injustices of the world and have been brainwashed into believing that they cannot change people, places, or things. If you have ever cleaned a house, or have done any gardening, you know that is a lie! If you have ever had a discussion with someone, and either your own mind, or theirs was changed as a result of the information exchanged, you know that is a lie! If you have ever read anything, or written anything and had your own mind changed by what you have read, or changed someone elses mind by what you have written, you know that is a lie! They say that politics cannot be discussed, even though the 12 traditions only say that the GROUP does not endorse or oppose any causes! All issues are political. It is not merely talk of individual politicians that they forbid, they prefer a world view that blocks out everything except their own connection to it, essentially denying the existence and reality of almost the entire world.

It is my hope that treatment centers, 12 step program central offices and groups will do a serious 4th step so that they are no longer exacerbating the situation in light of this national crisis!

Profiteering drug dealers AKA big pharma prevent the cost effective, medically effective alternative of marijuana, CBD and THC preferring to charge people $475,000 to treat cancer! “More recently, scientists reported that THC and other cannabinoids such as CBD slow growth and/or cause death in certain types of cancer cells growing in lab dishes. Some animal studies also suggest certain cannabinoids may slow growth and reduce spread of some forms of cancer. There have been some early clinical trials of cannabinoids in treating cancer in humans and more studies are planned. While the studies so far have shown that cannabinoids can be safe in treating cancer, they do not show that they help control or cure the disease.”

The fossil fuel industry is living in the ice ages!

And then people bought freezers.

The carbon argument against fossil fuels is an establishment argument that was originally drafted for the purposes of Wall Street to capitalize off of reducing pollution through trading carbon credits, that thankfully failed.

I oppose the Paris Accord and carbon trading because the Paris agreement will actually increase pollution because it allows developing nations to continue increasing pollution and fines developed nations for not reducing pollution and also expects developed nations to pay for the transition of developing nations, prior to our own transition.

Theodore Roosevelt, Barry Goldwater, and Richard Nixon were all environments. T.R. started the national parks system, and Richard Nixon started the EPA. Stepping back into toxic sludge is not revolutionary, it’s stupid.

There is no safe form of nuclear energy and there never will be. Safe nuclear energy is a physical impossibility. Once the process of nuclear fission begins, it cannot be stopped, unless there is an explosion or nuclear meltdown in a nuclear chain reaction that occurs. The nuclear waste must be fed like a monster. It is done so in the reprocessing of spent nuclear fuel. New metals are added in attempt to weaken the radioactive levels, and to cool It with moltent metals! It is the equivaent of trying to walk up the down escalator going at 75 miles per hour.movie,It is my belief that the 50's sci-f The Blob was actually about nuclear waste.

The Hanford nuclear plant is undergoing heat decay in the process of a nuclear meltdown in a nuclear chain reaction which will eventually result in a nuclear explosion. Using nuclear waste for nuclear energy production also creates more nuclear waste.

Cold fusion is not safe either. It is an outright lie that it is. The nuclear reactors are called breeder reactors because they breed radioactive material in the process of nuclear fission. The waste is not burned in the process. Large quantities of radio active tritium are released into the atmosphere.

My Zero Hedge Rebel yell profile, Iphone, Gmail, and LinkedIn accounts were all hacked into in June. I had also cut the cord on my Directv after discovering that people broke into my house and added cables behind my home entertainment center. My car also stopped working in June, shortly after I had discontinued WiFi. Within days of my phone being disabled, all appliances, cars, planes, lawn mowers in the area started singing crazy songs that made no sense. I had attemted to fix my phone at Verizon wireless and they refused to accept my Wisconsin drivers license and passport for ID, and they were also trying to get passwords from other accounts which I refused to give them. They and the Grafton police department were trying to get me to go to the Apple store in Bayshore mall which I had refused to go to since it has one of the highest abduction rates in the country. I had confirmation from a Dairy Queen employee about the motors singing when the freezer there started singing calypso music. I concluded that the cell tower owned by American Transmission Company is sending microwaves into the area and these signals are picked up as radio waves by the motors. I attempted to call American Transmission Company 3 times last week and they wouldn’t answer. I called the Village of Grafton and asked if the village president Jim Brunnquell would call me. He did not call me, but had sent the police to my house 3 days in a row and I did not answer. Jim Brunquell is also in management at Froedert Hospital and Medical College. I suspect that he may be abusing his power as village president and is using Grafton residents in unethical and illegal medical experimentation without their knowledge, or consent!He has been president since 2003 and prior to that, he had been a

village trustee since 1993. Evidently Jim Brunquell believes that he is allowed to electronically torture people who do not allow unlawful surveillance of them in the privacy of their own homes. He belives that he ownes the residents of Grafton for his exploitation and he should be removed from office. I have also placed foil over glass on the stove and refrigerator.

He is a deviant, sadistic, monster who should be barred from working in the healthcare industry.

The entire state of Wisconsin is corrupt. It has been since I moved here in 1985 to Whitefish Bay and was being followed by the same people wherever I would go. Every time that my mom would leave the house. I received sexually harassing phone calls. I also had reported an incident to the Milwaukee police department which they did nothing about, although the beat cops on Wisconsin avenue were great and always came when I had caught and reported shoplifters.

I had worked in a building with the FBI and when I had moved to Shorewood in 1993, a surveillance camera had been placed on top of a street lamp outside of my third floor window, and every time I would get up to clean, the phone would ring and they were black women who said that they worked for AT&T. That would happen 8 to 10 times a day. When I closed the shade, the phone calls stopped. AT&T had also worked in that building.

Thank you to the hackers, stalkers, thieves, spies, and vandals, who have made me realize precisely how poweful my message is. You have instilled a self confidence that I have never had. It is completely obvious that they are nothing more than decoys used as a diversionary tactic to send you down a rabbit hole in order to prevent you from accomplishing your goal, and/ or pathetic, intellectually incompetent,insignificant parasites, or perverted stalkers that you should not talk to. Luckily, I haven't been idiotic enough to take the bait.Trust your instincts and tell the truth. It's their biggest fucking fear. They are betting that you and I won't. You and I are obviously more of a threat to them, than, they are to you and I, which has been proven by the extroidinary expenses and measures that they have gone to in a an effort to silence,discredit, and isolate both you and me.

New International Version
For our struggle is not against flesh and blood, but against the rulers, against the authorities, against the powers of this dark world and against the spiritual forces of evil in the heavenly realms.

Philippians 4:13

For I can do everything through Christ, who gives me strength.

Blessed are the poor in spirit: for theirs is the kingdom of Heaven. (Matthew 5:3)
Blessed are those who mourn: for they will be comforted.
(5:4)Blessed are the meek: for they will inherit the earth.
(5:5)Blessed are those who hunger and thirst for righteousness: for they will be filled.
(5:6)Blessed are the merciful: for they will be shown mercy. (5:7)Blessed are the pure in heart: for they will see God.

They come into my home and take anything they want of mine to cause pyschological warfare with me in hopes I will become mentally unstable. They have my home bugged, they control my emails, iphone and computer. They have gone to every establishment I frequent and each establishment hecomes part of their team of gang bullies. They control my mail, UPS and Fed X. I am on Pyschatrist medications due to the PTSD they have caused. My social life has completly stopped. I am even afraid to garden and gardening is a big part of my life its one of the most important part of my life it hrings me enormous joy but because of the surveillance I am no longer able to function as I did before this invasion.

Charlotte, I understand what you're going through, being in a similar situation. I believe Sharon Ruda, my evil pagan-witch former supervisor at the Illinois State Library across from the capitol building in Springfield, had me placed on this list about 9 – 12 months ago. I had to quit working there because she and her little workplace minions were harassing me so badly, and now her Masonic and Eastern Star Satan-loving witches are stalking me at home. My PTSD is better now, but that's because I'm able to be outside without being too close to the road. On the road (when I take my daily walks), I'm stalked by vehicles. I've been stalked in stores too. But, knowing that my cell phone's being used as a microphone for them to listen in on everything that goes on in our home, I've decided to control the narrative.When the phone's not in front of a "wind tunnel" fan, it's being used to make the perps listen to Billy Graham sermons on hell, loud Christian music, and me speculating on how all of this applies to them personally. LOL. I'm still trying to be more alert to store-stalkers, who are each going to be gifted with a Christian tract (which they probably will NOT like) — heehee!

Dear All,

I went through the same experience in life. So I can tell anyone beyond doubt that a strange phenomenon called gang stalking is actually taking place all around the world. However, my research helped me to understand that Gang stalking is a mind control trick only.

The human behaviour that you are seeing or observing is due to manipulation of human beings around you through a global satellite grid. For e.g. : We all have certain thoughts that others should not hear or know, cause if they do that will make you feel uncomfortable or make you feel ashamed. Now what happens if a person who is staying in front of you actually heard certain thoughts that they should not hear or know ? What would be their reaction?

Now what happens if we could use a sophisticated technology to stimulate the brain of a person who is staying in front of you to react in a way, just like he or she heard your thought? Don't forget we are dealing with a mind control technology. This technology can do exactly what I just mentioned you and make you believe that people around you or a person who is staying in front of you heard your thoughts and they are now reacting to it. This is just one trick that this technology does to fool a victim.

Gang stalking is a sophisticated program controlled by AI's by targeting a victim to give all these experiences. People will react to your personal thoughts, they will say things to make you believe that they know you even, however, whenever you ask them they will deny everything, they will say that they don't know you etc.. which is actually true.

This technology could stimulate a human brain and make them perceive thinking, so in that case, say while you are on the road, they could stimulate a person's brain and induce a thought to a person and make them speak to you about something that you are thinking in that very moment or whenever you go for shopping or walking in the street, they could stimulate the brain of a person and make perceive thinking and make them to go in the same direction that you are heading. These AI programs are highly sophisticated, it could exploit human perceptions/thoughts by using brain stimulation techniques. My research helped me to understand that they have completely decoded human brain, therefore, any perception that you have could be induced to you simply by stimulating the relevant area(s) of the brain, which means, for ex: simply by stimulating a human brain they could make you hear voices coming from a particular direction or imitate anyones voice. They could make you perceive pain in a unique area of your body, perceive smell, taste, seeing, they could make you perceive angry, feeling of love, feeling of extreme urge, feeling hungry, feeling pain(phantom pains that imitate an actual pain), feeling excited, feeling sad etc.. or it could stimulate the motor cortex precisely and control your limbs, control your facial muscles or any part of your body that your conscious mind could do. Therefore, this technology is phenomenally advanced.

This is why doctors are taking Gang stalking as a delusion, cause they are no such groups in the world who are working together to harass people as the way Targeted Individuals are thinking, however, your experience is real, it's terrifying, it could make you think that your neighbours or local police /FBI /CIA are involved in this crime but the truth is they are not involved in this crime. This technology is currently operating from Switzerland. Understanding why I claim is hard unless you do a massive research.

You will be able to come out of this stupid program, as long as you understand its tricks, you will no longer see those people around you as stalkers, you will see them as a victim of a technology just like you, you will see their minds are being controlled to show emotions directing towards you, you will see their speeches are being manipulated by directing towards you etc… The capabilities of this technology is mind boggling, it could create delusions in people!!

I am a targeted individual, in canyon county ,Idaho, 83686, nampa Idaho, to be more clear. The harassment began when. I was attempting to leave a marriage of 12 yrs at the time, due to domestic violence, and mental torture. The difference with my attempted escape was (I believe) is my husband was a ex marine, who was close to a former police chief of good repute. He also is a biker, who considers himself to be a 1% er. His brother started a chapter of outlaw bikers in this town. I hd not realized what I had started , when he was arrested for choking me, if I had known what was about to become of my life, the lie campaigns perpetrated against me, the illegal and hostile surveillance of me, the vandilasm, the arrests I have endured for charges that have been dropped, because I was found not guilty in court, because I fought the charges, but, I still spent time in hail for crimes I did not commit, I became homeless, I was even so frightened, that I went back to my husband, and now , if I do

not behave in fashion that he likes, I am harrased , followed, illegally survailed, it even has resulted in physical harm. The very first thing that I noticed, right before the lasers, was a new box, attached to the power pole on the edge of our lawn, the color on it's display changes when I arrive home. City workers and vehicles are involved, I have been tagged as a prostitute, a drug dealer, a child abuser, an addict, anything they can think of to convince neighbors in every place I have tried to live in to join in the harrasment. . No end in sight.

Wow!!! I am so sorry to hear that. I have "very similar" experiences in manassas, virginia. The reason that "biker gangs" are deployed as "assets" by "black ops" of the "shadow government" is "multi-fold". First: they are usually very stupid and uneducated(bikers), second: they have all been in "trouble with the law", so they are easily "leveraged and manipulated". If you can, have the local police commanders checked out, at least one of them is probably a "homo-sexual pedophile". That was the case in manassas, virginia, a "sex crimes" detective was a child molester and he blew his brains out when they came to arrest him at his "mommy and daddy's house" where he lived. Ironic, eh?

My name is Aaron. I gave info to the FBI in 2008 that was acted upon and have been stalked, harassed and threatened daily for almost 10 years now. I broke a code that revealed a secret society in the highest levels of government plotting something very nasty. My info was acted on to dismantle their plot. It's all leaked at Enemy of the Swamp DOT com. God knows if anyone will ever see this comment so I'm avoiding going into great detail. All signs point to FBI Infragard for street theater harassment, C.O.P.S. created by Clinton, DHS contractors, local and state emergency services reading Fusion center files. High tech online harassment, customized TV content and radio content points to NSA. Hitler's wet dream has been brought to America to cover up for corruption and to justify reckless insane spending and misappropriation of military defense budgets.

There isnt a lot you can do. But the only thing you can do to make your life better is to not engage in any conversation with them. Ignore all the sick shit they say. You have to learn to live your life and pretend they are not there or you will go crazy or get depressed. They want you to respond to them not necessarily with a response in words but to switch your focus onto them from whatever you are doing. And if you respond to them all the time then you are paying attention to them and the shit they say will bother you. Ive been going through it for 3 years. You havent done anything wrong to be harassed. Your brain will try and find a reason for why youre being tortured and you may think of things you may have possibly done and they will use that to make you think they are doing it because of you. YOU DIDNT DO SHIT TO DESERVE THIS. THEY HAVE NO RIGHT TO DO WHAT THEY ARE DOING. FUCK THE SICK FUCKS. THEY WILL BURN IN HELL. They can read tour thoughts some what. So they will use that to trick you to make you think they can see you. They cant see you. They are probably not even in the same state or country. The fuckin losers are sittin behind a computer stalking your life because they are losers and dont have one. And will do anything for money. The more you ignore them the better it will get. It takes time but you will get use to it. Find some web sites that offer support and get in contact with other t.i.s . u can email me at Mlubinskas092083@gmail.com i can send you some links.

I want to know if they make me think like the other people around me. is in that too with ,them pls send answer me as soom as posible. also what you think. can i tell my family and girl friend?

danny200238271

February 6, 2018 at 04:36

The other people around you are not in on it. They made me think the same thing.When mine first started they made me think my friends and family were doing it and since my brain was trying to figure out why it was happening ibwould believe what they were saying partly becauase if it was true then there was an end. But it isnt the people around you. That is what they want you to think to cause more stress and more trauma. Think about the technology being used do you think any of your friends or family could have access to it. Or do you think they could spend as much time as they are doing this to you. The best thing you could do is try as hard as possible to ignore it. And even once you think of ignoring them you will notice how hard they try to get your attention by saying a bunch of bullshit that they know you will respond to. Stop believing anthing they say and dont respond to them it will make it easier to live. These people are sick and cannot be reasoned with. If you ignore them you will see how ot is easier to live. And having a relationship is hard. I have a fiance and 2 kids. They dont care they will destroy all our lives if i let them. Pretend they are not there . have a fuck you attitude. Because i know its hard to have sex and go out and do things with your girlfriend because it feels like they are watching you. But they cant see you or her and if you let them ruin everything you will get depressed. I wouldnt tell your girlfriend unless she is really open minded and will believe you. But chances are she will think you are crazy and it will only make your life harder. And telling her may put her at risk of being targeted. It isnt gonna stop so try and learn to live with backround noise. Dont respond to them practice deflecting your attention. If they say something to upset you then think of something that makes you happy etc.

Thank you for this article, I am or have been a t.i. – had a friend pass away from suicide couple years ago. His best friend told me he was complaining of the same problems I was out in traffic. He had a opiate problem but I believe he was being attacked psychologically out in traffic. It does seem that it has gotten better, they were simply too organized when all the stuff was happening to me. Bad actors & or puppets. Thanks again I will look up Ted Gunderson.

I am a 55 year old white male.i have noticed sense October I was being followed.i did Google this and the term (gang stalking) came up.i have never heard of this but continued reading up on this topic.Over the past few months my life has deteriorated to the lowest point ever. I never thought I would try suicide but few days ago .at 3.00 am I went to my garage .closed all windows and doors.i started my truck ,set down on.chair and waited.i would say after 30 to 40 minutes .my breathing was beginning to be difficult..i was getting sleepy so I thought this was it.suddeny I heard 2 cars drive up alley and people got out and I heard one person.say (Hey this is suicide. Our jobs done .let's get out here)these people up and left .I was so upset i crawled with all my strength to the door and got out into fresh air.
About 2 days while on line ,i read up on gang stalking .i read where suicide is the goal.This is what they hope for when.they start stalking people. I am so upset. These people being paid by my.tax dollars. Could have and should have came to my rescue but instead left me for dead.
I can only tell people that things are so bad for me I dont.what to do. My family .friends and even.my counselor went behind my back now and called police and are trying to have me committed. Suicide I take personal.i found my sister dead from a shotgun.blast self inflicted many years ago so it took a lot of hardships to get to this point the other night
But no more.i am as pissed off and more determined to fight these people till this stalking stops for everyone.i have lost my job .my home .my family ..it just me but I will stand my ground. These stalkers are even.using drones to harras me at my cabin.i have contacted police .written my senator and congressman.So all you people being stalked keep your chin up and never give up.I believe that good will always defeat evil.

Fuck those pos. Ive been tortured by a group of people since 2015. Im harassed 24/7 with v2k technology and they had stalked me for a while in the beginning then the electronic harassment started. If your ears are ringing then you probably are being tracked and listened to and then you will get people harassing with voices in your head. Right now the stalking phase is your only chance to stop it before you get tortured for the rest of your life. Its sick that they pick people like me that have kids and work full time pay taxes etc. When there are drug dealing gang bangers never working a day in there life and fucking being leeches on society and they are able to live how they want and i am being tortured.

So sorry to hear of your troubles. I have been tortured for 9 years by an eclectic group of scumbags. Some of these criminals are being paid in a “Vendetta” because I turned in a rapist/murderer doctor. That psycopath comes from a “very wealthy” family and the things they have paid these scum to do to me are “mind boggling”. Other lowlifes they have convinced to participate as “volunteers” because they are losers and want to feel “strong and important.
They even send me this website via email on my “hacked phone” to taunt me. The fbi won’t do anything, just like they did nothing to prevent that school shooting in Florida. Good luck to you and you husband is probably a “closet case homosexual” anyway, so, no loss there for you.

I have another healthy reminder for the ti’s here, i can only speak bout’ my situation – I AM HERE TO HELP I have not read every response here but the ones i did read seem to be genuine. When driving in your vehicle and leaving a public place, if you find a car cutting you off as your leaving alot – theres yer sign. Often times they will be sitting in their car waiting for you to leave and texting with the other coward scumbag stalkers.I do feel sorry for these people/puppets except then they start to tailgate me and the rollercoaster of emotions start to annoy the crap out of me. On a weekly basis I have someone who was tailgating get out of their car and try to provoke me into a fight, they want you to get out of your car and then they have you rt where they want. These people do not have much talent but are well organized and deceptively elusive. Remember if you see someone waiting on you to leave and or starting their car as your leaving it could be a sign.

There other main goal besides provoking you to get out of your car is to in essence TRY and play God, I have thought this one through, keep in mind that some of the things’ we see in the news (Chemical weapons attack) on innocent citizens is just another form of organized provocation. Often times people who want to try and make some traffic incident look like an accident (play God) have done serious harm to other people – as they have been clever enough to get away with it. Harassing the target is how they deal with there fear of their past – or at least I think. Like other posters here I too have have been poisoned, windows of my home shot at with high powered bb gun (where my cat sat), and harassed for over fifteen yrs. plus I’m hypersensitive to bad vibes. Caught em on sky cam at library keying my car, the librarian showed me the footage and all but property damage detective said the crime was not big enough for investigation. The groundskeeper asked me how many times I frequent the library? They had his ‘get away’ driver he left in on camera and had him on camera entering and leaving the library. Groundskeeper that showed me sky cam footage said he went in to make sure I was in the building and then walked out and scratched my car Good news is you may become more aware out in traffic, they do have an agenda so again be careful. May God Bless all who are trying to live in peace and may God strike down these corrupt criminal organizations.

Peace out to the good folks – no matter what nation your from..

Yes, they harass me in traffic also, with “one headlite” out, one “parking lite” out, high beams. What I try to do is turn it around on them, I will pull over very quickly and then back in right behind them. The thing I like most is how “consistently cosmetically unappealing” the females that are involved in this are. I sometimes think they join groups like this because they are “mad at the world” for being such UGGS(so ugly)”!!!!!!! Basically I harass them and it is SO FUNNY, when I catch them at a light and pull up next to them, they NEVER LOOK OVER, as if to keep me from being able to identify them. The person that put these “SCABS” on me told them I am a “Child Molester”, so they are acting as “Vigilante Vanguards”. The truth is I am not a “Child Molester” but if I was they would have NOTHING TO WORRY ABOUT because if their kids look like them I assure you, they would be QUITE SAFE. In conclusion, I live in manassas virginia and the local cops are “Townie Barney Fifes”, they are involved too because my “tormentor” is VERY WEALTHY and owns these “nitwits” outright! My solution, I have fun laughing at them and harassing them right back. They won’t do anything, they are gutless, punkass scum. Good luck! M.H.

My neighbors in Grafton Wisconsin are severely disturbed individuals who have gone to extraordinary and excessive lengths to let me know that they have been surveilling me online, as well as in my home, by shouting things in relation to what i have posted online, at times from hundreds of yards away, and mimicking things that I have just done in my home in a street theatre act. I consider them to be amoral, psychopathic m, white-trash losers, and will not be intimidated by them there are more than a half a dozen neighbors involved, out of over a hundred. What ever their goal is, I do not know. My home has been repeatedly broken into with an alarm system. I suspect that part of their goal is,to get me to use surveillance cameras, which is pointless because the CIA can disable cameras and recreate video with a program called CIA DUMBO which was reported by Wikileaks.

OWEGO, NY IS THE POSTER CHILD OF GANG STALKING, DRUG AND CHILD TRAFFICKING, MONEY LAUNDERING!!!!!! My name is Robert Levesque III, I am the one that was in the libel case in New York. I too must state, that myself and several others have been the target of gang stalking activities in the Village of Owego, NY. I have recorded a series of events leading up to and after a death threat that was emailed to us, after a call was placed to the FBI Tipline in New York, thereby, I HAVE PROOF OF THESE GANG STALKING ACTIVITIES! To view the death threat, please refer to my facebook profile https://www.facebook.com/rob.levesque.50 I have not published the intimate details, but I have posted the death threat itself and some detail into how we received it. Lockheed Martin is in the same Village. We have in many aspects documented whom have been involved in these activities and how far these people can go. The "Heroin Epidemic" is equal in scope to the Child Trafficking in the area as well, these two are connected to each other through the same group. I have seen how certain members are given businesses to operate, whether or not the individual actually wants to run the business. They may call it by many names, but it is referred to as "The Family." Specifically in that area, local IT businesses are instrumental in the hacking and spying of phone calls and internet usage. IT companies connected to the family of David Monell take part in some of these activities. David Monell was a former Lt. of the Tioga County Sheriff's Department, in a captured video that made headline news, the video is available on Youtube to view, David was videotaped assaulting a handcuffed person. This person was a drug dealer from out of town and one of his jobs was to chase away out of town dealers so that local dealers would have no competition. Another way of which is used to spy on people are the use of Stingray Devices which imitate a cell tower, which allows a call to be heard from nearby. A Fusion Center is located in Owego and it was the site of the death of Chief Fire Inspector John Scott. As usual, the details in his death are not discussed or have they been examined in detail. A witness stated that John was told immediately prior about mysterious activity when a person tried to call Emergency Services for a person that was overdosing. The person had overdosed, a family member called about seven times, each time the phone kept ringing. On the eighth call, a person picked up and simply stated "Hello." Paramedics took over an hour to get to the scene and they were in no rush, whatsoever. To go back to Lockheed Martin, we have seen where houses will be bought or used to conduct surveillance. These homes are also sites where many things are stored. A few of these individuals whom have conducted these operations were actually followed, they traveled to Lockheed Martin, were in the building for about two hours and would leave and do the same thing over again. Many of these individuals whom have conducted the surveillance have died. Itchy Mead and other Owego Code Inspectors are actually heroin addicts and pedophiles and are very much involved in gang stalking activities. Three people in particular that I need to mention are Tim Nield, William Standinger and Karen Vinti, between Standinger and Vinti alone…. they are both experts in Child Abuse. The local police departments are very much under control by these people. Please refer or comment or just plain bring attention to my and others situations in Owego, NY. The Village of Owego and the surrounding areas ARE IN FACT, LARGELY UNDER THE CONTROL OF LOCKHEED MARTIN. There is simply too much for me to talk about, however, I can go into great detail about these circumstances and further information into these very same topics. Just a bit more…. some of their tactics are to set you up under rape charges, they will run you off the road, they have poisoned people, run them over, they like to break into your car and plant drugs, they like to utilize drug addicts…. drug addicts can be made to say anything and they are very often the ones whom actually sell children to feed their habits. The local media do not discuss details into these types of things. Again the links between drug and child trafficking are actually the same. No one in Upstate, NY, certainly the Village can or will speak out publicly, these issues are very well understood, those people know it well. The villagers themselves call it the "Good Ol' Boy Club." A man named Brian C. Smith was an investigator and was investigating missing children and related activities, he was set up by NYSP on several occassions, he was told by "someone" that the Albany legislature was aware of these operations and that they would NOT touch it. It was well understood that what is occuring in Owego, Tioga and Broome Counties of New York, that it was untouchable, no one had any power whatsoever in what takes place

in those areas. He investigated, captured information, found out the full extent and was set up and sent to Auburn Penitentiary, he can detail exactly what is going on! I cannot legally speak on where a lot of this money is being laundered…… even a cursory glance will reveal it. Senator Fred Akshar, Captain Kathleen Newcombe, Eric Strong who is a priest of some sort and a real estate agent, Sue Haddad a lawyer for NYPD are very much behind most of these crimes. So many strange circumstances have surrounded me….. I even captured footage of UFO's, which is viewable under my facebook profile. I sometimes have strange dreams, as do other people connected to me. As many times as I have tried to share my experiences, I have been denied by pretty much everybody with power in NY. I am very often simply ignored. This is very much the truth, there is much more to discuss.

Good morning, I have been thinking quite a bit about how all these things are happening. You should probably keep a journal and if you have been living in the same place for a long time, see if anyone in your family that is that resides in the same house has had the same symptoms. The money your spending on your health care, believe it or not , is not always worth it. Yes you need to take care of yourself, but the thing that keeps running through my mind, is that every time you go even for your MRI they are there all ready causing the disturbances. They don't have to pay for your medical bills, the government does. Perhaps if you look at it like this, all your symptoms are not always real. They have access to your medical records so think about it if they are researchers and stalkers they are getting free research information as to how their system is affecting you and piling that up , which allows them to use that to further their technology. They use different people at different times, different sexes, different gene pools. The more they have access to about your medical results, allows them to use their technology to destroy more parts of your health, by the end of these weapons being designed they will be targeting certain individuals with certain things all ready with them. Why dont you just take your vitamins, your health and all that and keep accurate track of when all the symptoms started. We have the same power, but they refuse to let you be because they have the finances to keep the program up and running, If you have friends, if you have resources , if you can gather enough people, get together and start running your own groups, gather the symptoms you have, its no different then in times of war. We must take back our homeland. We must take care of all of the victims worldwide. You can stand up and use your voice.

What the heck?Oh my gosh!!.. I read about this and this is frightening and creepy stuff!
and Wisconsin has this all over, but updated big time read about this this in Milwaukee Wisconsin, read an internet article from California police article at news reports… also even have signs up all over there about electric harassment implants!
I asked a cop investigator in Illinois from my side of the family and they said unfortunately it is true, and Law enforcers everywhere are working on this big time now, because technology is getting through illegal and unauthorized hands and being figured out by younger people also!

I agree 100 percent I am involved in this sick shit by being a victim, but they made a mistake with me. I am well versed on ops conducted by stasi, us army combat veteran 20 yrs, studied this to the death. There's lots of holes and weakness in it. It's beatable. Keep up the fight. Our country our way of life, don't let our founding fathers and those who gave all let this take our country. We as a
Americans we stand up and defend our country from this evil tactic. Never quit. Our country needs us. Justice and good will prevail. The ways and means is inside all of us that have goodness, strengths and the warrior spirit hold onto your convictions. They will fail. Evil always does.

They are probably using tech to hear your thoughts and track you. It probably seems like someone is following you and could be but they trick peoe into thinking that In the beginning stages of electronic harassment. V2k torture is the next stage.right now is a good time to try and stop it before it goes further. I would look into it and do what u can .

Yes, these are bad people. I reported a doctor who was a sexual predator and a drug dealer. His family is FILTHY rich and they hired a goon ex detectective to harass and stalk and torture me. This family has high level governmment connections, one of these idiots even flys around in a helicopter. He likes to think he is "black ops" when the truth is his "deceased daddy" left him all his money that he has now. I did society a favor by getting this guy kicked out of the medical field for 6 years but this creep bought his way back in. I live in Virginia and they gave him his medical license back, even after having it suspended twice for raping and overdosing and killing his patients. I have creepy little barney fife local cops and low level government agents on me and a disparate collection of scumbag gangbangers. They have falsely accused me and convince these "braindead volunteers" that I am some sort of "sexual predator". They got a few nano-chips in me, via the contents of my refridgerator and even implant something on my optic nerve at a V.A. Hospital. What can you do? There isn't much one can do as far as I have been able to ascertain. The have "shanghaied" my internet so even this website is adulterated by these scumbags. No matter what they do that doesn't change what a pschotic loser that doctor is. It also doesn't make these loser "Cyphers" worth anything. I think their attempts at "psyops", including this website and quite possibly you are "utterly ridiculous" and I am typing this response because I am bored and I enjoy laughing at my "tormentors". I live in a town called manassas and it is "rife" with complete idiotic losers that would walk off a cliff if the "controller" told them to. Good luck with your dilemma, even though you are most likely "one of them" as indicated by your tell tale misspelling of a word in your text. Mike Harrington.

Bottom line, these are orchastrated by but not limited to, charitable organisations and faith based groups including police, fire dept, EMT, civil air patrol.
Organisations include but not limited to, rotary club, lions club, mason lodges and their likes , volunteer fire dept are number 1.
They get grant money to pay and train the perpetrators. Called CITIZEN CORP. OR INFRAGARD.
they use the charitable organisations such as mentioned here to organise down the chain or pyramid , if you understand this.
They are the direct link to the cops and citizens. Its in their handbook and Rotary club has its own anti harassment policy that is very detailed as to NOT harrass another member., very detailed policy. These people are heads of congress, county commisoners, business owners, heads of corporations,
Find out who supports your lo al rotary club or lions or volunteer fire fighters and dont shop there. VOTE WITH YOUR MONEY , not for political figures. Because they dont give a hoot.

I live in Prince William County Virginia. I called the DEA and FBI on a "Psychotic Pervert doctor". He had raped his female patients and overdosed and killed at least one other. His family is "well connected" and worth 300 million dollars. The own Manassas, Virginia and a good number of the police and prosecutors. They have their cops and so called "community volunteers" stalk me. They hack everything electronic in my life and have gotten "nano-devices" in me. I have to admit, I enjoy "Hating" them. Their "coalition" includes "faith based" orgs., can you imagine what kind of weiro "church" people would do this? Hang in there and laugh at these empty, pathetic idiots. THEY WILL GET WHAT IS COMING TO THEM!!!

I am sorry to hear of your discomfort. Sometimes when we cannot prove what is happening and we have to strive to find the answers ourselves, it is as simple as learning to work within the system and find ways around those that are supposedly tied to them. There are people out there who will believe you but unless you are willing to stand up and fight for those victims the only thing that you are doing and no blame intended is creating more. Start a support group, find a lawyer that will believe in these victims and know this, if their stalking you now, they wont stop. Do you have answers that they need because not every handler is as bad some of them are paid to stalk you, some are paid to talk to you and others believe in you. You must identify which is which and find a way to clearly communicate what you know. Keep records at all times. What you know can save millions of lives, what you must decide is this, if one person trust you enough to come to you, then so will many others. There are proper channels for each of these women to go to and rather you belive it or not men are victims of stalkers just as well as women. You might consider going to domestic violence and get thier support and encourage the other women that have come to you to do the same thing, ask them to go in and report the rape instead of just coming to you.

Thank you for your supportive words. When I say these people are "Well Connected", that is an "Understatement". The State of Virginia gave this "CRIMINAL" his license back for the SECOND TIME. They kept him off the "Sex Offender" Registry, even though he pled guilty to "Sexual Battery". He gave a "Lethal Dose" of "Opiods" to a "26 year old" young man that walked into his clinic and that patient died that night. He is a "MONSTER"! I will tell you that the Prince William County Virginia Authorities along with the Virginia Board of Medicine are MONSTERS ALSO. This scumbag is practicing "Medicine" in Staunton, Virginia as I write this. His brother flys around in a helicopter and "Sits on the Board of Directors" at a Country Club where they hold "The President's Cup". They have "Several Nano-Devices" in me and have "Poisoned me" and "Maimed" my body.
The problem I face in "Doing Something" is that they have a "Multitude" of "Law Enforcement" contacts, both on the local and federal level. They have gotten

me on some sort of “Vigilante Internet Target List” as some sort of “sexual predator”. This PIG gave drugs to my Fiance and basically RAPED HER because she was so “INEBRIATED”.
I just feel that “Eventually” they will get what is coming to them, so I just continue to “Pray” and live “One Day At A Time”.

Yeah we all experience different things, but in the long run if you live your daily life to the best of your ability and they end up taken it all you can do is be thankful for what you have done, who you have lived for and everything in between.. What are they afraid of, they say nothing, but their weakness is not as hard as you think it is to find.. Just remember to pray daily and to live each day like its your last, death is inevitable for all of us. Keep your faith and move forward.. Life is this way because they are angry, resentful and only see value in their lives not ours… if it comes down to it, write your family, keep hard copies of your letters, have all of your feelings compiled, tell your family each day how much you love them, freedom is never free and eventually remember if your christian you didnt ask for this, your salvation is not at stake, keep yourself surrounded by people at all times and enjoy your life, your best revenge is to keep on keeping on.. Keep it real, start a support group, were more powerful together then seperate.

They use a device similar to Range R.
This is a small handheld microwave radar device that can see into a building from approximately 60 ft or so away.
What it does is just give human location in a building.
They are only available to law enforcement or Fire departments from U.s manufactures.
However, they can be purchased online from overseas to anyone.
A WALL-BOT , used with a cell phone, used with the Alfred app, used with another cell phone will relay realtime video of movements on another side of a wall , such as an apartment, condo, hotel room, even could be placed outside your house on the wall to see movement inside.
It can’t see you , see you, but you’ll be a blur of some color to the trained eye watching the camera.
So, when one, wonders how they know you moved from the chair in kitchen to the bath. This is one way.
Another is a large scale microwave radar possible mounted on a communication tower.
These radar can see up to 40 miles away.
Their computer interfaces can be parameters off to watch a particular house, road, vehicle etc. And they have it correlated with dept of the navy Google maps terra server to realtime zoom in on a target for viewing.
RAIN AND INCLEMENT WEATHER ARE YOUR FRIENDS. These can see in your home, your yard, your car, your windows!
They know if a mouse moves around your back stoop, Yes they can.
The technology exists to send electro shock wave into every man woman and child home.
They have drone aircraft that and do kill people, follow people, and much more.
They have seeing thru wall units mounted on aircraft to see through your roofs, and in trucks or trailers roaming around unsuspecting in every neighborhood.
The technology is there for the taking and believe me they use it.
They can LISTEN to any mobile phone by way of a fake cellular tower called a stingray or imsi catcher.
They also make a mobile phonethat can hack into and track your phone just by knowing that IMSI number and the phone number.
If you use a cellular phone, ALWAYS REMEMBER , your conversation is not private.
There is always someone listening.
It’s a walkie talkie, that’s what it is, a sofisticated walkie talkies.
Get rid of your mail delivery to where you lve, get rid of your post 1998 vehicle, get rid of your credit cards and lock your credit files.
Get rid of your cell phone every 30 days and never use it where you work, where you live ,where you sleep or known associated locations. Keep battery out, keep SIM card out and all stored in a Ziploc in a cookie tin can.
It’s not traceable at that point.
Cell phones give off radiating signal from their internal parts, such as neodidium magnets, and capacitors.
All forms of i.d. And anything remote to credit card, bank cards, passports can be read in some city’s by RFID energized antenna and scanners placed there by and organizations or gov. Look these systems up and familiarize yourselves with what they look like will help you recognize when you’re out n about.
RADAR antenna are placed in the least suspected areas of suburban america BECAUSE, most, not all, are too busy to care, too ignorant to realise that the technology is there because no ONE told you.
Police, have cameras on their cars that take pictures of license plates at an alarmingly fast
Rate. They loaded into a data base to displace information about the vehicles.
They immediately know who you are if they are looking for that tag. And if, you’re stalked they know where you are now. So, a way to flip that license plate is definitely a must. But use discretion here because, you only want to hide it from the stalkers not the cops. So keep your eyes peeled.
Another way they track you is by your electronic TOLL pass. Ez pass! Keep it in a tin can when not in use. It can be and is being tracked.
Toll booths and roadway traffic cameras, again, they’re doing the license plate recognition, a simple computer privacy screen cut to size fixed over your tag/license plate will thwart the hiway cameras. It won’t be invisible it just won’t be readable from above, which is where most traffic recognition camera are.
Hope this helps out most people that are having some minor difficulties.
And remember, plan if you’re going to retaliate, don’t tell anyone, get rid of all social media, and by all means and I mean by all means make certain you have the right target.
As these groups like to make it appear as if it’s a certain person or group doing it to you but however, they really are doing this NUSIANCE to the whole town.
So it would seem that you’re singled out when that fire truck rushes by you at say 10:13 or a police siren at 2:03 am. Or the mailman shows up at 1:33.
These are the way society is programmed so, don’t jump.
You’re being baited to be a statistic.
Just like everyone else.
Think of it from an investment point.
If all these groups are running the price of real estate down because, that’s what they do.
Knowing what I know, I would not invest in a town with big government, period.
All SHERIFF’S DEPARTMENT DO THE PROGRAM.
If they bust you for a crime, they literally take all your property by FORFEITURE!
so, there are many lucrative reasons for the finger to point to them!

There's your answer, who else would do such acts?
Only the protected! And they are the groups but not limited to those mentioned.
You have to remember, the old proverb, the thieves have the key. And unfortunately in this sick world people are waking up too late as this has always been the status quo, but now technology has made it easy for them.

Protect yourself with a camera, a frequency jammer and a frequency counter. Once you find their source of watching or tracking you you can hamper them.
The frequencies will read on the frequency counter and then you know what you'll need to jam.
Usually, they use cell phones hidden in a tree, bushes, a parked car, a neighbors mailbox, a light pole, with a app installed called ALFRED or a similar app.
This turns any smartphone into a real time video camera that can be viewed any where from another cell phone.
They also communicate with area perpetrators with NIXLE or NEXT DOOR app. To determine your location if your traveling they will literally use swarms of vehicles and aircraft to follow you. But the police dept can't seem to find the person who just robbed a convienence store, go figure?.
What's more is Google maps shows your location to the perps by some tracking device.
If in the u.s. just look around your address zoom in and you may be surprised to see a dot on your vehicle or house.
Several things with this very important,
1, these can be placed on or very close proximity to your property. They are geocache markers or actual gps units given to no suspecting volunteers to drive by your home or business at specific time as the gps beacon is programmed to ping.
You can get a simple frequency detectors for this and record the time it pings. There are more, two, these can be used to take photos of your daily routine coming and going from your residence. 3 aircraft harassment, they know exactly where you are on the ground.
4 as said, invest in a jammer.
They only can be purchase from china, use an anonymous payment form. And use an anonymous name , and use an anonymous shipping address.
It's very time consuming and costly.
Set up a private mailbox in a city far away with someone you can trust. That in itself is very important and if you search for one you'll find the right people.
Stay away from ups and Fed ex private box. Use some mom and pop place that will understand your "stolen i.d." situation.
Use a prepaid cell phone, junk it every 30 days.
Cookie tin cans are great for storing your phones, credit cards, passport and anything else you don't want tracked.
Don't believe me, try it yourself, put your phone in one and close the metal lid, then call it?
You'll get nothing.
Don't leave your vehicle unattended, this opens opportunity for the stalkers to place a tracking device on it. Do a "cleaning run" every now and then, take different modes of transportation to lose a tail.
You'll be very surprised what you learn.
Late nights, weekends, Sunday night late.
Most of the participants stalkers have to go to work on Monday but they do have a skeleton crew.
However, head to your large supermarket empty parking lot and see who shows up in a 20 min to half hour. I gaurentee you'll have not one but two park right near you in a totally empty lot.
Camera in hand remember?
And your jammer, who they gone call when their phone don't have a signal? Neither will yours so use discretion.
Ultimately, they want to bait you.
Bottom line, it's about money for the system.
The system works like this, the fire department harass people, they call the police, boom MONEY, you get possibly sick over this bull shit, boom MONEY, the MET and the fire department show up and BTW they get paid PER CALL!. Cops get salary and quota.
Boom MONEY, if they arrest you, boom more MONEY, if they convict you boom more MONEY, when you get out of jail no matter who you are, boom, you have to have a job, boom MONEY, and BOOM BOOM, YOU ARE NOW CONFORMING TO SOCIETY AND PAYING TAXES. BECAUSE YOUR A FELON YOU CAN'T VOTE WITH YOUR MIND BUT YOU SHOULD ALWAYS VOTE WITH YOUR WALLET AND NOT SUPPORT BUSINESS THAT support the police, fire dept, emt, military, rotary and lions clubs masonic lodges and the local doctors and the list is NOT complete.
This is 100% done by organizations by way of grant money from the g o v. They actually train these idiots at fire departments meetings called community health and awareness safety.
Citizen corp volunteers! So, these branch off into other business, other faith based groups, charitable organizations of all types none are EXEMPT.
Just remember, they always travel with at least 2 volunteers and sometimes they are unsuspecting of what they are actually doing this for. So retaliation is not going to solve this but, you can protect yourself for things to come. Moving won't help unless you're single or your significant other is 100% onboard with a disappearing act.
Which can be done , it takes planning and MONEY.
Sell all your shit, get your passport, rent your property, buy a sailboat, and embrace the gps given change you've been given, go see the world!

My name is Amanda B. I am a single mother in Louisville, Kentucky. I have been gangstalked for several years now and have noticed it much more since having my child. Atop of police stalking, I most often see the same cars with retired military license plates while I'm on the road. Also temporary tags and plates from other states like Ohio, Illinois, Tennessee, Georgia, and Florida. They tend to have the same sticker (green is the color this month it seems) in their windshield. If I meet their gaze they are most often making a face of disgust or anger, as if they somehow hate me without ever having met me.
The stalking is ever present though some days much worse than others. Everywhere we go I'm met with unreasonable rudeness. Yesterday the stalking nearly caused me to wreck twice. But that is not a rare occasion. They have nearly killed me on the road several times. They don't care if I'm driving with my child.
I work full time and go home to my child. I'm struggling to get by and don't receive benefits. I just want to live my life without fear of my fellow citizens. I have done nothing to deserve this and it has done intense emotional damage and more. I can describe it only as evil. What they are doing is plain evil. I need help and have no idea what to do or where to turn. I just continue to pray because mentioning this issue to more than the few I have told will cause people to think I have lost my mind; And that is not the case.
I pray for myself, my family, and for everyone out there dealing with this. I pray we find our help and peace and that justice is served. We know if it isn't served here, it will be after our time on earth. But God, it is beyond difficult and painful.

Holding on.

No different then doing this to you right in front or over phone oron internet right!?
Many persons know anyone can put a Nano sized in inch long radio in a capsule wireless and you can hear it, unless it is turned down real low just so you can her it and put it in your mouth closed so only you hear it and this is the same thing as what your saying, others surgically are put in or dentally put in, These are found all over the world in many forms and can be used in many different ways! There is information on these with patents everywhere all over the internet! And they had a university class on them and a huge technology show also about the different kinds and how they use them in Wisconsin not to long ago also!!So you are not crazy and they could be attempting any criminal activity or harassment activity and what ever! Who is doing that… and for what real reason,,,, is questionable, so be careful of possible "Set ups" that way also!
Lets hope all law /military does not neglect or ignore any of whatever is happening with that technology!!

Been buzzed by FBI/DEA/US MARSHALLS Cessna spy planes 10-25 times a day for 6 &1/2 years in Portland, Oregon – beginning in September 2012. Plus "boots on the ground" (assholes in vehicles) so to speak. Then couple years in to that ordeal local police and even the local fire departments seemed to get involved and pile it on.

Everybody thinks I've gone nuts but I have no history of mental illness and this all began when I was 42.

In any event, have learned to shut up about it in order to stay employed and remain married.

Seems unlikely, but still holding out hope whistle blowers from within come forward with my name on the shit lists and I get liberation, rights restored, and hefty cash payout for severe injuries inflicted and harm suffered (this shit has thoroughly destroyed my quality of life).

Likewise, would like to see all the other innocent and loyal American TIs liberated justly compensated and America scandalized and forced to face up through a kind collective Reckoning with what's happened and been perpetrated in their/our names and with our tax dollars.

That and these treasonous pukes hang for their crimes against US.

Hey what's good people! Just wanted to add some advice and layouts for you guys.. this can get you guys to come up with your own ideas also!

First thing is first; – these perps are using illegal forms of biotechnology to harm and manipulate your brains.
* Keep energized; these perps can use illegal biotechnology to get you to feel tired or fall asleep..
– Drink coffee, if you are caffine intolerant, take other extracts like vitamin C , vitamin D, milk thistle extract. Those "emergen-C" thousand milligrams packets they sell at CVS and other places are a great substitution if you are caffeine intolerant.. airborne is also a good replacement.. chai tea with tumeric added into it and other cancer fighting properties. Energy drinks work also.. research other things that will keep you awake but make sure it's nothing moronic like speed lol..
This is important because sleep deprivation is definitely a Psy ops military tactic that these military sleeper cells pretending to be Americans and civilians are attempting to pull on the people.

* Eat avocado.. I didn't like it for a while until I realized the amount of healing properties and benefits this miracle food has. This will heal your brain. It's literally "brain food". For those who had nanomachines slice through your brains and failingly lobotomized you;
– take fish oil Omega 3! * This is a key factor in fighting their illegal biotechnology and tactics. Combine avocado and Omega 3 together; don't over take them but take a strong amount.. you can never not over eat avocado.. I grew up not liking it for awhile until a few years ago.. you can add zests of lime, diced peppered tomatoes, salt and cilantro, mix that up and turn that into a dip with chips… That's not a bad dip to try.. Don't knock it till you try it! If you seriously don't like avocado and it just "tastes like grass" to you then stick with the Omega 3 and take an extra half dose. This will literally heal your brain. I had insomnia for 3 months.. I literally couldn't sleep and was constantly moving in my bad due to perps attempting to program me and institutionalize me and lobotomize me.. they gave me haldol injections.. almost put me on the brink of madness and manias..

Every day I would drink tea and extra doses of Omega 3. I didnt think of utilizing avocado at the time..

These are other ways to heal your brain without utilizing medical marijuana.

– Medical marijuana – cannabis oil, hash oil, *Rick Simpson oil* especially will heal your brain. Smoking a bowl or bong of a sativa dominant 60/40 hybrid will surely benefit you, but hashesh oil and Rick Simpson oil will not only will cancers in your body just like other healing plants with properties such as tumeric; but that will definitely calm your brain and heal it but only if you are in a Faraday cage or a safe house or wear a neodiyum magnet 52 N specific portable Faraday helmet for when you do get "high" that's when perps and nsa agents will really mess with you and they can just give you lobotomies again..

That's why im adding this next one in;
** FORITIFY YOUR HABITAT
– there is Rfid blocking paint you can buy on the internet.. make sure it blocks about 50-80db
Tape paper covering your entire walls then paint the paper with the Rfid blocking paint; that way you can literally just take them down and place them somewhere else at a different location making that effective portability and so your resident leaders won't get pissed for Rfid painting their walls in an apartment lol makes sense, right? Lol

Build the helm – there are many ways you can build s portable Faraday helm.. ive seen some a genius friend built that's like Magneto's helmet from x-men, and I've seen some that are built that aren't sophisticated to where anyone can build them to where it's affordable and resourceful

– get a beanie, get two orders of verified rfid blocking material – you can cover it over your phone to see if it blocks signals to make sure that works.. cover that up and tape that on the inside of your beanie all the way to where it also protects your neck. You can ductape that securely or add Faraday blocking tape/water proof/electrical tape also.. whatever secures the Rfid blocking material to where it's snug.

Next step is to add neodiyum magnets 52 N (specifically) 1/8 of a size make sure there are about the size of a silver dollar.. get about 15 or more of them and find a way to secure them on the inside of the beanie surrounding the entire diameter of the circumference meaning once around left and right and once around up and down.. you can secure that with gorilla glue/waterproof type of glue and tape or whatever other secure findings you can also come up with..

You can literally get a swim cap and make a water proof version out of this***
that way they can't regroup or illegally gather your thoughts when you least expect it *When you shower*. Yes. You can wear a friggin' magneto golden vip Faraday Rfid blocking helmet.. but when you take that off to go take your shower… Guess what most likely happens with their technology? They literally just regather all the information and knowledge you tried blocking from them with that Helmet All day. Yeah. Meaning if you take the helmet off and take a shower at the end of your day they will still remember what you ate for lunch during the day time while you take a shower. This new idea of a waterproof helmet is an amazing achievement of mine, not only will it not rust, but this will protect you from them taking your thoughts. This will prevent them from predicting your moves from their artificial telepathy and programs.
Make two. The beanie for outdoors and comfy sleep and the water proof one for when you shower. After you shower put the cloth beanie back on while you sleep do they don't collect your thoughts or control your dreams while you sleep. These combinations have been proved to work especially through science. This should at least block the basic to advanced level street perps and the neodiyum 52 N 1/8 magnets should interfere with the satellites successfully.
Best part about these two pieces of gear is that they are affordable. The total will be around $120 for both ergonomical beanies. Quite cost efficient and resourceful.

When you have no choice but to work
When you have no choice but to work and perps are harassing you at work trying to get you to quit your job run away and leave.. utilize an importance of *Incentives* – this could be a rice crispies or granola bar waiting for you in the break room or the home made meal you brought yourself that you know for a freaking fact that this comforts you. Most certainly.. their goal is to make you "snap" or "break" to where you stand up rip your shirt off in front of anyone and say "you won't like me when in angry.." lol that way they can fire you and then try to make you homeless by organizing events to make you completely broke -i.e.; tow your car, raise your heat and electrical bills for no reason, organize street perps to steal your items and wallet and id's.. stuff like that. To keep your mentality fortified , look forward towards "the break room" of where your "treats" are as *incentives*. To me.. even the simplest thing I can literally utilize as an incentive . I'd run a whole mile for some crab Rangoon.. stuff like that. Whatever type of incentive you like that is in the form of food as a treat definitely works.. trust that. Could be a Cheerios granola bar to even your favorite workout protein bar of Oreos and creme or an actual meal you prepped and brought or got like grilled salmon and potatoes with a drizzle or bread and cream cheese with jam!

Literally focus on that as an objective while they "bombard" you with verbal threats, and harassments while you are working whether it's more of a physical job – general labor – when your body works harder physically , food and drink will taste better -better than when it is when they say it tastes better after you are "high" on medical marijuana.
When it's an office or call center job – add a chai tea or honey tea anything raw honey also to calm your vocal areas while you eat tapioca pudding, fruit cups, yogurt and honey or even a cup noodle soup with citrus soda just stuff like that.. the simplest treats can really cheer you up mentally during the most toughest times.. don't forget to eat mints! Peppermint and mints can help you concentrate more and make sure you don't forget to take your caffine intake during your "room breaks".. if you are caffine intolerant bring those 1000mg vitamin C packets and mix it in a bottle of water.. that will certainly add extra energy and electrolytes to your body.

Recap – take caffine or vitamin c to fight back against their sleep deprivation tactics.. take double the amounts of Omega 3 and eat a good amount of avocado if they are harming your brain with illegal direct energy weapons and illegal forms of biotechnology..
Wear the outdoor beanie $65 I recommended and built for you
Wear the water proof cap during your shower and water times that I advised for you
Wear the outdoor comfy/nighttime beanie on for when you sleep to prevent them from manipulating your dreams and gathering your ideas and thoughts while you are in bed. – these two hats are definitely an important idea to not only be secure and fortified but also comfy.
Enjoy the incentives while you are at work to inspire and fortify you to keep going
"if I hold up until break time I get rewarded with coconut water and rice crispies treats.. way more important than these stupid perps"

Yeah. This is just stuff off the top of my head.. hope it inspired some of you all to also come up with your own ideas too and if you do or if anyone has anything else to add to this feel free to add your forms of advice on here also! This is an open forum the more ideas the better!

Enjoy and keep safe out there

Much love ❤️ 🌄

some similar stuff going on in Finland, many years of gangstalking and electromagnetic torture, in Helsinki, Rovaniemi, Oulu, finnish military seems to be part of this as well so not sure if im targeted by U.S. or finnish criminals.

What you guys can also do is After every week or so work on any negative aspects of those days and jolt them down add reflective stat of mind

work with optimism that will get you to progress

Dont ever forget to have four or many different pathways during your day schedules when you want to go to a grocery store think about going to multiple diffferent grocery stores during that day then choose the one you want to go to when you get to your car since a grocery store is mainly just a grocery store for now that wont matter just for you to survive as a targeted individual so dont forget when you get in your car just go to the one your actually going to that you pick that way the street theaters that they try to organize will be less effective and know its mostly the obama corp paramilitary nsa and illuminati fbi stuff like that… less perps will gangstalk you if you do that

best of luck

Read my posts.
GPS jamming,
It's easier to jam than to try to find the tracker.
And also the RISS system regional information sharing system.
Is how they communicate.
Plate readers are everywhere.
it's police and fire plus the snitches.

Grocery store, you need to rotate, however, there is ALWAYS one perp in the parking lot everywhere.

I've made it so I go way out of my way, and I have no trouble at all.
Best of all, the town I live in looses the sales tax. How stupid are they?

most importantly they use verbal psy ops to try and program you… every single word almost that they speak thru conversations are most likely fake… fake just to try and either make you say something so they can use that as slander just to lower your confidence and moral .. stuff like that … if you go to the rest room and then these stalkers and perps are illegally harassing you to where you might be like oh well i hope they dont think about me when i went to the restroom they will say stuff like "you just ruined all of america" stuff like that just to make you feel bad… or most importantly if they ever say stuff like you will have HIV tomorrow… don't listen to them because most of that is a psy op just to agitate you into ";snapping" to where they can attempt to lower your moral illegally some more… there was a young lady student at a universersity who was stalked by 6 perps who sat next to her during college lectures that kept stalking her behind her telling her that she is in a sleep paralysis and coma and that she is already dead in another reality to where she went to a mental facility from the agitation… im literally in the las vegas library right now and they are stalking me right now mocking me typing this just to give you guys some advice to survive this through… things will get better you just got to keep fighting but don't do anything stupid saying things like your going to shoot people or anything like that.. keep your cool… they want to try and disarm you… they are definitely trying to agitate me right now while i type this by trying to lower moral with words and almost every word in their fake convo of street theater psy ops are to also put words in your mouth also to literally and immaturely point and be like "hey look what they said" just to lower your moral and confidence this is literally for pseudo science and other disgusting sociopathic and unnecessary purposes … they also might say your alien or something like that or harass you saying that your gay i've read some of these other targeted individuals comments being harassed when they actually aren't gay… they are psychopathic anti social failed cryptozoologists that are doing this for electronic torture entertainment basically . The allied forces right now are working on turning all of this off by ending this elec
tronic warfare torture and illegal remote neural monitoring by the NSA There are certain allied countries that are creating laws to end this

best of luck

Definitely happening to me as well. After being falsely accused and arrested by a dirty cop for capital murder, I filed a lawsuit against the police (LMPD). RIGHT AFTER FILING, MY LIFE HASNT BEEN THE SAME. My son hits a gas grill in the road and later died. I honestly think they had the grill thrown out in his path. God knows what all truth is. Had to relocate to another state because my girlfriend, my 83 year old mother, and myself were repeatedly assaulted with microwave and other directed energy weapons by another dirty cop detective that lived directly behind our house, and other cops were helping him to stalk us. Also tracked with drones and assaulted with weaponized radar system on them.

Do All you can do to protect yourself.

Important that you make a safe environment for your mom. Mom's are important very important.

Electronic waves are real and easily used.

If you have a basement, with good filtered ventilation a bit of fine screen wire grounded and attached to joist, walls and floor covered by flooring of your choice would protect mom very well.
Or a room can be easily fixed up in no time, just make sure you do the window and the entry door and all electrical boxes as well.and make sure you ground it!

The electronic waves will hit the screen and 99% will get absorbed to grounding.

Don't use cell phones in the house,
Keep off and battery removed with SIM card out.
If you think that phone has been compromised, get a prepaid phone with cash and only use it away from home.
Pull battery and SIM when not in use.

If possible, set up a private mailbox, or several.
Don't get mail at home,
You want to minimize your foot personal footprint.

Start learning about privacy, your privacy.
Protect it, you'll soon feel better knowing the only thing they can do is electronic harassment short of shooting you though.
Body camera,24-7

Surveillance, when you're around in public whatch who's watching you then look who's watching the watcher.

Fire and emt personnel ,
These are your biggest threat because they use the RISS regional information sharing system. This is how they use a system that's not public information to communicate with perpetrators.
Or a app called "next door" and there are similar ones too, do a search and be aware.
Selling personal information is big business.

Frequency jammer is a friend for you.
They are illegal in the states and you now know why.
Using one in your vehicles when out and about will help stop reporting your location by planted gps tracker. At which can be as small as a 25 cent pc.
You'll need at least a 10 band and the wifi band, gsm, 5 g frequency are a must Plus all the cellular. The more you spend here the better you're protected. This adds wattage output, and 1 watt is pretty good but multiple units or one with more watts will give you better protection from gps signal and cellular triangle you.

Radar, is real and they use it to the fullest extent.
You can out run the radar if you're going on a long trip and mountain terrain is there.
Otherwise, inclement weather is your friend. You'll still be visible but burried in it.
They can track humans on foot with the radar.
And the drones are for video footage cued by the radar, yes this has been around for At least 20 years and it's perfected.
So much so that regular people can buy the units, because, I use my own to track them.
Ive a Spotter rf. It's not cheap but, I know who comes and goes and from where. That's another story.

Seeing through walls, again fire dept , unit similar to RANGE R.
Only sold to le and fire. But rouge or good citizen can buy from china manufacturers.

Plus, there is a slew more with cable and utility companies using fiber optic cables to detect movement in an area.

The only thing you need to do is secure your mom and yourself when sleeping.

Don't worry, just fix each issue one by one and soon you'll feel better.
It's not going away, they'll just get more people to lie to and that you need to protect yourself from.

And the good news is they are doing this to everyone not just you.
Because, it turns neighbors against citizens and they all pay taxes for the same amount of noise and electronic harassment you do.

You think that electronic wave stops at your house?
It don't, it keeps going right through the neighbors house on to the next.
They all get it!

Google maps actually has a certain layer embedded in it to see if you have any targets in your area!!!!

This is a long story.

They have choked me, thrown hot coffee on me and my dog(for ignoring them btw), crashed into my car several times with STAGED car accidents leaving me disabled without a license, my best friend died and they non stop would get cracked out lookalikes to surround me while grieving(using horrible “dopplegangers” is one of their overly used tactics); ppl who never knew claiming they were bffls, real bizzare stuff .. on top of gangstalking me, following me, mobbing me.. also if you approach a gang stalker, DONT BELIEVE FOR ONE SECOND THEY HAD NO IDEA THEY WERE TAKING PART OF HARASSMENT AGAINST YOU, of course they do! Gangstalkers are given govt paid cars,clothes and are paid to be at certain locations to perform certain tasks to harass you(i.e. talking extremly loud about something you just privately discussed..) they are NOT innocent.. they will lie and say that cuz obv they dont want to admit they are breaking the law.. they know damn well they are being hired $2/hr to hurt you.

There are those gangstalkers that control and hire the gangstalkers that mob you, that listen to your convos, know your location, that will hire street gangstalkers in public and right outside your home to harass and mob you. BOTH ARE GUILTY AND NOT INNOCENT. THEY KNOW EXACTLY WHAT THEY ARE DOING. how can you be hired to drive into someones car and/or destroy personal property and NOT know that they are gangstalking and harassing you?! They are stupid maggots and guilty, hold them accountable. Stalking is illegal.

I was 16, a minor, and female when i first noticed i was being gangstalked. That is disgusting.

Alot of serious money has been put into an operation like this. Its not the masons, its not scientologists, its not your local church, its the government that claims we have a national debt yet we have all these illegal spy programs being funded.

The crimes esclated so much I reported it to the FBI. Kinda weird how the harassment got even WORSE after doing so.

In short, theyll never admit it, but the gang stalkers make it known youre beibg harassed and followed by them, thats thier job is to target you, an innocent person. Its also part of thier job to DENY being part of organized harassment campaigns and never admit to gangstalking you. They want you to look mentally ill, so dont count on anyone admitting to thier crimes. Its just part of thier manipulation. There is no such thing as an innocent gangstalker.. if a stranger or dhs hires you to wear an ugly red jumpsuit(they love the color red for many reasons) at a certain time and talk annoyingly loud about something very private of yours, how could you not know youre being hired for something shady? Always protect yourself against these psychos.

Ignoring them just makes it worse.. i ignored them yelling and following me one night so they dumped hot coffee over me and my dog.. i did what was supposedly right once i got chocked by a slut at dunkin donuts on cam called the police when the cashier failed to. She didnt get locked up bc she told the police she hadnt been taking her meds.. BS. they should of put her in a psych ward AND arrested her for physical harm.

Btw in my case both perps were wearing thier ugly red jumpsuits.. so i got in more trouble by ignoring these jealous psychos.. youre better off standing up for yourself, it is illegal to stalk and harass you.

Its really gross to think that they were following me in person and staging events when i was a minor.. also they would cyber bully me anonymously.. ppl think they should be afraid of sex offenders, its your own goverment that you need to fear.

Yea
